

# Update: Revised Publicly Funded Immunization Schedules for Ontario is Now Available

The Publicly Funded Immunization Schedules for Ontario has been updated and is available online at <http://health.gov.on.ca/en/pro/programs/immunization/schedule.aspx>.

The updated schedules continue to provide information on:

- The routine immunization schedule
- Catch-up immunization schedules
- High-risk immunization programs and schedules
- Eligibility criteria for all publicly funded vaccines
- Minimum and recommended intervals between doses for vaccine series

A summarized version of the routine and catch-up immunization schedules is available at [https://health.gov.on.ca/en/pro/programs/immunization/docs/Publicly\\_Funded\\_ImmunizationSchedule\\_s hort.pdf](https://health.gov.on.ca/en/pro/programs/immunization/docs/Publicly_Funded_ImmunizationSchedule_s hort.pdf).

Key updates in this version include:

- **The addition of maternal Tdap dose**
- **Hepatitis B eligibility expansion to Grade 12**
- **Rotavirus changed to Rotarix 2-dose series in place of 3-dose Rotateq series**
- **Simplified catch-up schedules to reflect that all students are eligible for Hepatitis B and HPV vaccines until grade 12**

Please ensure you are using the most current schedule when providing immunizations to patients. Refer to vaccine-specific product monographs and the Canadian Immunization Guide as guidelines and resources to ensure immunization information is up-to-date.

For assistance regarding the Publicly Funded Immunization Schedules for Ontario, please contact the Durham Region Health Department at 905-666-6242.
