Advisory / Other Committee Minutes

There are no Advisory / Other Committee Minutes

Members of Council – Please advise the Regional Clerk at clerks@durham.ca, if you wish to pull an item from this CIP and include on the next regular agenda of the appropriate Standing Committee. Items will be added to the agenda if the Regional Clerk is advised by Wednesday noon the week prior to the meeting, otherwise the item will be included on the agenda for the next regularly scheduled meeting of the applicable Committee.

Notice regarding collection, use and disclosure of personal information:

Written information (either paper or electronic) that you send to Durham Regional Council or Committees, including home address, phone numbers and email addresses, will become part of the public record. If you have any questions about the collection of information, please contact the Regional Clerk/Director of Legislative Services.

If this information is required in an accessible format, please contact 1-800-372-1102 ext. 2564

The Regional Municipality of Durham Information Report

From: Commissioner of Planning and Economic Development
Report: #2021-INFO-119
Date: November 19, 2021

Subject:

Monitoring of Land Division Committee Decisions of the November 1, 2021 meeting and Consent Decisions made by the Commissioner of Planning and Economic Development

Recommendation:

Receive for information

Report:

1. Purpose

- 1.1 This report summarizes the decisions on consent applications made by the Commissioner of Planning and Economic Development pursuant to By-law 29-2020 and decisions made by the Regional Land Division Committee at its meeting of November 1, 2021 (see Attachment #1). The applications approved by the Commissioner are deemed to be non-controversial in that no comments or concerns were raised during the circulation process. All approved applications conform to the Durham Regional Official Plan. For the applications approved by the Land Division Committee, no appeals to the Ontario Land Tribunal are recommended.
- 1.2 A copy of this report will be forwarded to the Land Division Committee for its information.

2. Previous Reports and Decisions

- 2.1 This is a monthly report which tracks Land Division application activity.

3. Relationship to Strategic Plan

3.1 This report aligns with/addresses the following strategic goals and priorities in the Durham Region Strategic Plan:

- a. Service Excellence – To provide exceptional value to Durham taxpayers through responsive, effective, and fiscally sustainable service delivery.

4. Attachments

The Regional Municipality of Durham Information Report

From: Commissioner of Finance
Report: #2021-INFO-120
Date: November 19, 2021

Subject:

Annual Reporting of Commodity Price Hedging Agreements for the Region of Durham for the 2020 Fiscal Year

Recommendation:

Receive for information.

Report:

1. Purpose

1.1 The purpose of this report is to provide Council with the details of the Commodity Price Hedging Agreements for the Region of Durham for the year ending December 31, 2020, in accordance with the Region's Commodity Price Hedging Agreements: Statement of Policies and Goals and Ontario Regulation 653/05.

2. Previous Reports and Decisions

2.1 Staff reports to Council annually on Commodity Price Hedging Agreements. The 2019 report ([Report 2020-INFO-17](#)) was presented on March 13, 2020.

3. Background

3.1 On June 20, 2007, Regional Council approved the Commodity Price Hedging Agreements: Statement of Policies and Goals for the Region of Durham, as outlined in Report #2007-F-53. The primary purpose for the development of the Statement of Policies and Goals was to provide the Region with the appropriate framework and guidelines when considering commodity price hedging agreements which can assist in providing greater price stability and certainty during periods of price volatility.

4. Reporting Requirements

- 4.1 As noted in the Statement of Policies and Goals, the Commissioner of Finance and Treasurer shall report to Council annually with respect to any and all commodity price hedging agreements that are in place. The report shall contain, as a minimum, all requirements as set out in Ontario Regulation 653/05 and will consist of:
- a. A summary of any contingent payment obligations under the commodity price hedging agreement that, in the opinion of the Commissioner of Finance and Treasurer, would result in a material impact for the municipality, including agreement termination provisions, equipment loss, equipment replacement options and guarantee indemnities; and
 - b. A summary of the assumptions applicable to any possible variations in the commodity price hedge agreement payment and contingent payment obligations.

5. The Region's Current Natural Gas Consulting Agreement

- 5.1 As approved by Council through Report #[2019-F-40](#) (Request for Proposals RFP #348-2019), Blackstone Energy Services Inc. was awarded the contract for the provision of consulting and related services for the supply of natural gas for the Region for a three-year term with an option to extend for up to two additional one-year terms. The new contract was made effective November 28, 2019.

The Region's Current Natural Gas Price Hedging Strategy

- 5.2 The Region currently has over 24,550 m³/day of natural gas volumes committed to the distribution system through its Direct Purchase Agreement. The Region was billed for almost 8.5 million m³ in total natural gas volumes for the 2020 calendar year at an estimated cost of almost \$2.3 million, including applicable taxes (not including DRLHC accounts¹) across over 60 end-use accounts.
- 5.3 In the 2020 fiscal year, in order to hedge against seasonal volatility, the Region entered into the following fixed price transactions:

¹ DRLHC accounts receive natural gas through either the Housing Services Corporation (HSC) natural gas bulk purchase program or through OEB-approved system gas rates (approved and updated on a quarterly basis).

**2020 Fixed Block Transactions for Natural Gas Supply for
Regional Managed Pools**

Start Date	End Date	GJ/day	Cost per Unit	
11/01/2019	03/31/2020	214	\$3.56/GJ	\$0.137/m ³
11/01/2019	03/31/2020	184	\$3.295/GJ	\$0.127/m ³
11/01/2019	10/31/2020	230	\$2.92/GJ	\$0.112/m ³
11/01/2019	10/31/2020	214	\$3.15/GJ	\$0.121/m ³
11/01/2020	03/31/2021	230	\$3.370/GJ	\$0.130/m ³
11/01/2020	03/31/2021	54	\$3.915/GJ	\$0.151/m ³
11/01/2020	10/31/2021	230	\$2.99/GJ	\$0.115/m ³
11/01/2020	10/31/2021	214	\$3.585/GJ	\$0.138/m ³

Notes: - Costs are landed, not including local tolls from CDA Enbridge to Union Dawn.
- Gigajoule (GJ) conversion to cubic metres (m³) assumes 1 GJ = 26 m³.

- 5.4 Overall, through the execution of the hedges for 2020, it is estimated that the Region's hedging activity resulted in costs that were approximately \$51,800 more than otherwise would have been incurred securing supply at prevailing index/spot market pricing under the Region's Direct Purchase Agreement (approximately \$0.009/m³ for applicable hedged volumes).
- 5.5 For the 2020 fiscal year overall, it is estimated that the Region's natural gas acquisition costs were approximately \$0.123/m³ (weighted average), inclusive of transportation costs and tolls for its Ontario landed natural gas including all index and balancing transactions as well as fixed-block purchases. The Region's weighted average cost of gas measured favourably versus comparable pricing such as:
- a. Default Enbridge system gas rate as approved by the Ontario Energy Board (2020 estimated simple average of \$0.09/m³, including rate rider adjustments, and \$0.133/m³, including transportation);
 - b. Local Authority Services (LAS) Natural Gas Program (2019-20 program price of \$0.094/m³ not including transportation rate (priced at western Canada hub). With transportation to Union Dawn at approximately \$0.059/m³ total all-in cost including tolls was estimated to be in the range of \$0.16/m³; and

- c. Housing Services Corporation (HSC) Bulk Purchase Program (2020 program commodity price of almost \$0.093/m³ plus transportation rate of \$0.059/m³ for total landed price of \$0.152/m³).
- 5.6 With supporting market intelligence and analysis as provided by Blackstone Energy Services, Regional staff are kept up-to-date regarding market conditions and proactively secure natural gas supply for Regional accounts where deemed financially beneficial to do so. Any price hedge is incurred primarily to ensure a secure source of supply and cost certainty given supply constraints are more often experienced over the winter heating season.

6. The Region's Current Electricity Consulting Agreement

- 6.1 On January 27, 2016, based on Request for Proposal RFP 529-2015, Regional Council approved the recommendation that WattsWorth Analysis Inc. ('WattsWorth') be authorized to act for the Regional Municipality of Durham to procure electricity supply as a member in WattsWorth Buying Group, and provide related consulting services. Among the services provided by WattsWorth under the existing agreement is the development of procurement strategies and obtaining of competitive bids for supply of electricity to the Region's facilities using commodity price hedging agreements, where deemed appropriate.
- 6.2 While the Region relied on the services of Wattsworth over the course of the 2020 fiscal year, since February 2021, through a competitive bid process (RFP #529-2020) the Region has retained the services of Jupiter Energy for a two (2) year term with the right to extend the contract for an additional one (1) year term.
- 6.3 The Region's facilities, including Duffin Creek WPCP and DRLHC properties, are estimated to have consumed almost 185 million kWh of electricity in 2020 (metered and not adjusted for losses), at a total cost of over \$23 million across over 600 individual end-use accounts (including applicable taxes).²

The Region's Current Electricity Price Hedging Strategy

- 6.4 There are currently no fixed price hedging arrangements in place for any of the Region's electricity accounts as spot market electricity pricing has not reached a consistent level that would pose a significant risk to the Region. In addition to facilitating hedges (where required), the Region's electricity advisor also provides services such as strategic advice in account structures, pricing and exiting the Regulated Price Plan (RPP, either tiered or Time-of-Use) and shifts to spot market pricing. While the Region has used such retail billing agent services in prior years, no Regional accounts were enrolled in such services in 2020. The Region has

² Duffin Creek WPCP consumption and cost values are total for the plant. Duffin Creek WPCP is jointly owned by the Regional Municipality of Durham and the Regional Municipality of York.

elected to work with its electricity utilities to migrate several of its DRLHC multi-unit bulk-metered electricity accounts from a Time-of-Use to a Tiered Rate structure. These accounts and their number of suites are classified individually as residential units for the purposes of determining cumulative 1st and 2nd tier consumption and related costs and as such the Region will benefit from being under a Tiered rate structure.

7. Potential Variations in Commodity Price Hedge Agreement Payment and Contingent Payment Obligations

- 7.1 Hedging arrangements provide for fixed commodity pricing and the Region only contracts with credit-worthy counterparties which adhere to the requirements of the Region's Commodity Hedging Policy. Given this, there are no reasonably expected variations in the price payment of related contingent payment obligations related to commodity hedge transactions(s).
- 7.2 Given the Region transacts with natural gas suppliers on a regular basis, it has in place base supply agreements with four (4) natural gas suppliers (Direct Energy, BP Corporation North America, Suncor Energy and RBC) which ensures a competitive process for all supply transactions. Based on recent review, all of the Region's suppliers continue to meet the minimum creditworthiness thresholds set by the Region as laid out in the Council-endorsed Statement of Policies and Goals. Regional staff continue to work with Blackstone for the purposes of onboarding additional credit-worthy counterparties to further enhance competitiveness among the Region's natural gas suppliers.
- 7.3 For electricity-related transactions, while options are often reviewed, the Region does not currently have any active base agreements with any electricity suppliers, although the Region is currently working with its new electricity advisor, Jupiter Energy, to onboard prequalified electricity suppliers to allow for future transacting, should such market opportunities deem it financially beneficial to do so.

8. Relationship to Strategic Plan

- 8.1 This report aligns with/addresses the following strategic goals and priorities in the Durham Region Strategic Plan:
- a. Goal 5.1 Service Excellence – to provide exceptional value to Durham taxpayers through responsive, effective and financially sustainable service delivery.

9. Conclusion

- 9.1 For the 2020 fiscal year, while there were no hedges in place for the Region's electricity accounts, the Region did enter into several fixed price transactions for its natural gas accounts (not including DRLHC accounts) for the purposes of providing enhanced price stability and overall cost certainty.

9.2 Regional staff continue to work collaboratively with the Region's respective energy advisors and, with evaluation of market conditions and supporting price and account analysis, will consider opportunities for additional commodity price hedging arrangements, where appropriate and where considered financially beneficial to do so.

Respectfully submitted,

Nancy Taylor, CPA, CA
Commissioner of Finance

If this information is required in an accessible format, please contact 1-800-372-1102 ext. 2564

EARLY RELEASE OF REPORT

**The Regional Municipality of Durham
Report**

To: Planning and Economic Development Committee
From: Commissioner of Planning and Economic Development
Report: #2021-P-**
Date: December 7, 2021

Subject:

Decision Meeting Report

Durham Regional Official Plan Amendment #186 to establish the policy framework for Protected Major Transit Station Areas, File: OPA 2021-003.

Recommendation:

That the Planning and Economic Development Committee recommends to Regional Council:

- A) That Amendment #186 to the Durham Regional Official Plan to implement a policy framework, density target and delineations for Protected Major Transit Station Areas, be adopted as contained in Attachment #1 to Commissioner's Report #2021-P-**;
 - B) That the necessary by-law be passed, and once adopted, that Amendment #186 be forwarded to the Minister of Municipal Affairs and Housing for approval under Sections 17 and 26 of the Planning Act; and
 - C) That the "Notice of Adoption" be sent to the Minister of Municipal Affairs and Housing, the area municipalities, the Ministry of Transportation, Ministry of Economic Development, Job Creation and Trade, Metrolinx, the Envision Durham Interested Parties contact list, and all other persons or public bodies who requested notification of this decision.
-

Report:**1. Purpose**

- 1.1 This report recommends the introduction of new transit-oriented areas in Durham Region that will act as focal points for higher density mixed use development. Referred to as “Major Transit Station Areas” (MTSAs), these locations represent unparalleled opportunities to create Transit Oriented Communities, anchored by a rapid transit stations, each containing a wide range of housing opportunities, including affordable housing, office uses, street-oriented commercial uses, institutional uses, a wide range of recreational uses and public amenities. MTSAs are intended to provide integrated mixed-use development offering convenient, direct, sheltered pedestrian access from high-density development sites to station amenities and access points.
- 1.2 Major Transit Station Areas are defined in the Provincial Growth Plan as *"The area including and around any existing or planned higher order transit station or stop within a settlement area; or the area including and around a major bus depot in an urban core. Major transit station areas generally are defined as the area within an approximate 500 to 800 metre radius of a transit station, representing about a 10 minute walk."*

2. Background

- 2.1 In November 2019, and through its consideration of the Initial Business Case Update for the Lakeshore GO East extension, Council directed Regional Planning staff to accelerate the preparation of Major Transit Station Area (MTSA) policies, including delineations and density targets as part of the broader Envision Durham process.
- 2.2 Envision Durham is Durham’s municipal comprehensive review of the Regional Official Plan, addressing a variety of strategic land use planning and development matters. Envision Durham also represents the Region’s provincially mandated exercise to ensure that the ROP conforms with Provincial Plans or does not conflict with them; has regard to matters of Provincial interest; and is consistent with the Provincial Policy Statement.
- 2.3 The recommended Amendment designates and delineates the boundaries for Protected Major Transit Station Areas (PMTSAs), introduces a policy framework, and sets a minimum density target that supports transit-oriented development.

- 2.4 'Protected' Major Transit Station Areas are MTSA's that have been delineated by a municipality and subsequently approved by the Minister of Municipal Affairs and Housing, as 'protected'. There is no legislative requirement for municipalities to identify PMTSA's. However, if a municipality wants to implement inclusionary zoning¹ within an MTSA area, then it must 'protect' them through Ministerial approval. Once the amendment is approved by the Minister, it is not appealable.
- 2.5 The delineations for the PMTSA's were based on extensive consultation with area municipal planning staff over the past two years. The PMTSA's within the recommended Amendment contained in Attachment #1 are located in the vicinity of certain Commuter Stations and Transportation Hubs along the Lakeshore East GO Rail Line, and the proposed GO East Extension.

3. Previous Reports and Decisions

- 3.1 The following previous reports relate to planning for PMTSA's in Durham:
- a. Envision Durham – Growth Management – Urban System Discussion Paper, File D12-01, [Report #2019-P-31](#);
 - b. Advancing Rapid Transit Implementation and Transit Oriented Development in Durham Region, [Report #2019-COW-26](#);
 - c. Major Transit Station Areas – Proposed Policy Directions, [Report #2020-P-27](#);
 - d. Protected Major Transit Station Areas Proposed Regional Official Plan Amendment – Policies and Delineations, [Report #2020-P-21](#);
 - e. Envision Durham Growth Management Study – Housing Intensification Study, [Report #2021-INFO-94](#); and
 - f. Envision Durham Growth Management Study – Employment Strategy, [Report #2021-INFO-97](#).

4. Public Meetings and Submissions

- 4.1 In accordance with the *Planning Act*, a "Notice of Public Open House" and "Notice of Public Meeting" regarding the application was advertised in the "Ajax-Pickering News Advertiser", the "Whitby This Week", the "Oshawa This Week" and the "Clarington This Week" newspapers on July 29, 2021.

¹ Inclusionary zoning is a provincial land use planning policy tool that enables municipalities to increase the supply of affordable housing in new development in Protected Major Transit Station Areas, to create mixed-income developments in areas where the market has not provided for a mix of housing prices and rents on its own.

- 4.2 The statutory Public Open House was held virtually on Tuesday August 24, 2021 from 6:30 pm – 8:00 pm and attended by 56 people. Regional staff delivered a presentation and facilitated, moderated and responded to questions and comments on the proposed amendment.
- 4.3 The statutory Public Meeting was held on the September 7, 2021 meeting of Planning and Economic Development Committee. Four individuals spoke at the public meeting following the staff presentation and raised the following comments:
- The Amendment should include policies to recognize and protect existing employment land uses that may not be compatible with encroaching sensitive land uses within PMTSAs;
 - The Amendment should introduce more flexible policies to permit a broader range of land uses and built form types, within PMTSAs or alternatively, that the focus on permitted uses should remain with the local area municipalities;
 - The Region should explain how the minimum density targets will be achieved and met by the local area municipalities; and
 - The Region should consider approving existing employment land conversion requests in advance of the adoption of the Official Plan Amendment.
- 4.4 The Region received eight letters from the public in response to the consultation process. A summary of the submissions received, and staff's response, is provided in Attachment #2.

5. Consultation

- 5.1 The proposed Amendment and Public Meeting Report were circulated on July 30, 2021. Comments were requested by August 31, 2021. As of the date of this report, comments were received from the following:

Municipalities

- Town of Ajax
- Municipality of Clarington
- City of Oshawa
- City of Pickering

Agencies

- Canada Post
- Central Lake Ontario Conservation Authority
- CN Rail
- Kawartha Pine Ridge District School Board
- Metrolinx

5.2 Submissions were also received from nine members of the public.

5.3 The following key themes emerged from the consultation:

- a. Questions were posed regarding the timing of employment land conversions in the PMTSAs
 - The employment land conversions are being addressed concurrently through a recommendation report regarding all the employment conversions.
- b. Suggestions were received that the delineation of PMTSAs should be conceptual in the Regional Official Plan, similar to the current approach for Regional Centres. Alternatively, it was suggested that flexibility be provided to allow for minor refinements to the boundaries at the local level.
 - The Growth Plan requires that the upper tier municipality delineate Strategic Growth Areas in its official plan including Major Transit Station Areas. The Ministry of Municipal Affairs and Housing have advised that “minor refinements” to MTSA boundaries cannot occur in accordance with the Planning Act and the Places to Grow Act. Delineations cannot be further modified without amendment to the Regional Official Plan through an MCR.
- c. The level of specificity for permitted uses as proposed in the suite of PMTSA policies is too prescriptive for an upper tier municipal official plan.
 - The current Regional Official Plan specifies the types of uses that may be permitted within various designations including Urban Growth Centres, Regional Centres, Waterfront Places, Local Centres, Regional Corridors and Local Corridors. The Amendment would enable higher density transit-oriented development. The permitted uses listed in the Amendment are not exhaustive, but provide direction to the area municipalities. Detailed land use policies and designations within PMTSAs will need to be further refined by the area municipalities within their respective planning documents.

d) Support was noted for the existing Oshawa GO Station not being proposed as an MTSA due to its existing context and the limited ability to provide for compatible higher density uses. This comment has been noted and the area has not been included as a PTMSA in the recommended Amendment.

5.4 A summary of the submissions received, and responses, are provided as Attachment #2.

6. Notice of Meeting

6.1 Notification of the meeting time and location of this Planning and Economic Development Committee Meeting was sent to all the requested notification, in accordance with Regional Council procedure.

6.2 The recommendation of the Planning and Economic Development Committee on the amendment is scheduled to be considered by Regional Council on December 22, 2021.

7. Overview of Recommended Amendment

7.1 The recommended Amendment provides a policy framework to delineate PMTSAs, establishes a minimum 150 people and jobs per hectare density target for PMTSAs, and introduces supporting implementation policies. The recommended amendment will:

- a. Delineate the geographic extent of seven PMTSAs across the Region;
- b. Establish the vision, goals and objectives for areas so delineated;
- c. Implement of provincial policy as appropriate;
- d. Identify housing types and built form that will support intensification and Transit Oriented Development (TOD);
- e. Recognize best practices for TOD in PMTSAs;
- f. Enable a variety of transit-oriented land uses;
Prioritize active transportation and encourage the optimization of parking in PMTSAs;
- g. Promote an inviting and pedestrian oriented public realm, that enhance connectivity, generate employment and guide residential growth in PMTSAs;
and
- h. Provide clear policy guidance to area municipalities for inclusion within their respective official plan updates related to PMTSAs.

- 7.2 The recommended Amendment includes delineations for PMTSAs at the following locations:
- a. Pickering GO Station;
 - b. Ajax GO Station;
 - c. Whitby GO Station;
 - d. Proposed Thornton's Corners GO Station;
 - e. Proposed Central Oshawa GO Station;
 - f. Proposed Courtice GO Station; and
 - g. Proposed Bowmanville GO Station.
- 7.3 Detailed land use designations within PMTSAs will be undertaken by the affected area municipalities, either through separate amendments to their official plans, or when they complete their comprehensive official plan updates.
- 7.4 Due to the context of the lands surrounding the existing Oshawa GO station characterized by industrial and transportation land uses and infrastructure, there is limited ability for compatible mixed-use intensification at this time. Therefore, this area is not being put forward as a PMTSA through the recommended Amendment.
- 7.5 The Municipality of Clarington has requested that the Courtice PMTSA boundary also include an area outside the existing urban area boundary, east of Courtice Road. Since the broader Land Needs Assessment for the Region's municipal comprehensive review is not yet complete, the need and location for any urban boundary expansions will be presented once the LNA is completed. The recommended Amendment for PMTSAs does not include any recommendation for urban boundary expansions.
- 7.6 The southeast corner of Courtice Road and Baseline Road falls in proximity to the Darlington Nuclear Generating Station, in the area commonly referred to as the "Automatic Action Zone" (AAZ), that is used for emergency planning purposes. Comments were received through the Envision Durham Growth Management Study on the Courtice PMTSA from both Ontario Power Generation and the Canadian Nuclear Safety Commission, raising concerns regarding permissions for sensitive uses particularly residential within the AAZ. A policy has been added to the recommended amendment to restrict sensitive uses east of Courtice Road and south of Baseline Road, within the Courtice PMTSA boundary.
- 7.7 It is recommended that the Official Plan of The Regional Municipality of Durham be amended as set out in Attachment #1 to this report. The recommended Amendment adds policy language to certain sections, and renumbers some sections of the

Durham Regional Official Plan and introduces a new Schedule “C5” to the Durham Regional Official Plan.

8. Connection to the Envision Durham Growth Management Study

- 8.1 Through Envision Durham, the Region has been undertaking a Growth Management Study, including a [Housing Intensification Study](#), and an [Employment Strategy](#) as components of the Land Needs Assessment.
- 8.2 The Study indicates that PMTSAs have the potential to accommodate a significant level of growth, and are appropriate locations for a mix of residential and employment related development. The growth potential was assessed, and applying the policies set out in the Growth Plan for the Greater Golden Horseshoe, the proposed amendment includes a planned minimum density target of 150 residents and jobs per hectare. The density target is supported, by a diverse mix of uses, including additional residential units and affordable housing, that will support existing and planned transit service levels.
- 8.3 The Housing Intensification Study evaluated the proposed PMTSAs and their potential to accommodate intensification. All of the Region’s proposed PMTSAs were determined to have significant growth potential, and can accommodate the Growth Plan’s minimum density target of 150 residents and jobs per hectare.
- 8.4 The Employment Strategy included a detailed review of proposed Employment Area conversions, including those within PMTSAs. The proposed PMTSAs will provide for the focused development of a higher density mix of uses, including employment uses at rapid transit stations. The amendment will enable PMTSAs to function as new destinations, with policies that will support more intensive transit related employment uses. The proposed employment conversions will enable the implementation of PMTSAs and is recommended through a separate report coincident with this report.

9. Conclusion

- 9.1 The recommended Amendment is a result of a comprehensive process that involved extensive public and agency consultation. The recommended Amendment conforms with provincial policy, particularly the Growth Plan for the Greater Golden Horseshoe’s policies related to PMTSAs.
- 9.2 It is recommended that Amendment #186 to the Durham Regional Official Plan, as show in Attachment #1, be adopted and forwarded to the Province for approval under Sections 17 and 26 of the Planning Act.

9.3 It is also recommended that the “Notice of Adoption” be sent to the Minister of Municipal Affairs and Housing, the area municipalities, the Ministry of Transportation, Ministry of Economic Development, Job Creation and Trade, Metrolinx, the Envision Durham Interested Parties contact list, and all other persons or public bodies who requested notification of this decision.

10. Relationship to Strategic Plan

10.1 This report aligns with/addresses the following strategic goals and priorities in the Durham Region Strategic Plan:

- a. Under the goal of Community Vitality, 2.1, Revitalize existing neighbourhoods and build complete communities that are walkable, well-connected, and have a mix of attainable housing; and
- b. Under the goal of Economic Prosperity, 3.3, Enhance communication and transportation networks to better connect people and move goods more effectively.

Elaine C. Baxter-Trahair
Chief Administrative Officer

Amendment #186 to the Durham Regional Official Plan

Purpose and Effect:

The purpose of this Amendment is to establish a policy framework and delineations for Protected Major Transit Station Areas and the establishment of a minimum density target for these Areas in the Durham Regional Official Plan.

This Amendment also provides a Regional policy framework to guide further implementation of Protected Major Transit Station Areas.

Location:

Lands generally surrounding existing and future higher order transit corridor stations and stops, and in particular, lands delineated around existing and future GO Stations as shown on Exhibits 1 and 2.

Basis:

Planning Act R.S.O 1990

The Planning Act (the Act) sets out Provincial interests and directions on many issues, including:

the adequate provision and efficient use of transportation, the appropriate location of growth and development, and the promotion of development that is designed to support public transit and be oriented to pedestrians.

Section 16(16) of the Act further sets out enabling policies for Upper-tier municipalities to:

- protect and delineate the boundaries of existing and planned higher order transit stations or stops;
- Set the minimum number of people and jobs per hectare for the planning areas; and
- Require the official plan of the applicable lower tier municipalities to include policies that authorize the use of land for building and structures that support minimum densities.

This Amendment for Protected Major Transit Station Areas meets the requirements of Section 16(16) of the Act to ensure certainty with respect to municipal objectives around leveraging transit investment by enabling transit supportive uses and densities.

Section 17(36.1.4) of the Act outlines the Major Transit Station Area policies which are sheltered from appeal; namely:

- The identification of Major Transit Station Areas through Section 16(16) and any changes to those policies.
- The Region or lower-tier municipality's Official Plan policies pertaining to Protected Major Transit Station Areas; and
- Policies that identify the minimum densities for lands, buildings or structures in Major Transit Station Areas.

Through the Region establishing Protected Major Transit Station Areas under Section 16(16), area municipalities will complete secondary planning exercises (or equivalent) to establish policies pertaining to Major Transit Station Areas, including policies which identify the authorized uses of land, buildings or structures in these areas and minimum densities for buildings or structures in Major Transit Station Areas.

A Place to Grow, 2019: Growth Plan for the Greater Golden Horseshoe and Amendment #1 2020

The Growth Plan 2019, Section 2.2.4 - Transit Corridors and Station Areas provides the Provincial policy framework for Protected Major Transit Station Areas on priority transit corridors and outlines criteria to be met to delineate the boundaries of Major Transit Station Areas and establish minimum or alternative density targets. This amendment is also being undertaken as part of the Region's municipal comprehensive review under Section 26 of the Planning Act.

The Amendment to include Protected Major Transit Station Areas meets the requirements of Section 2.2.4 of the Growth Plan as well as achieves overall Growth Plan objectives related to planning a complete community that supports the intensification of existing built-up areas, more compact greenfield development, and better alignment between land use and transit planning.

The proposed amendment will designate and delineate seven Protected Major Transit Station Areas on the GO East Rail line. The amendment also establishes a policy framework to facilitate implementation planning by directing the applicable area municipalities to undertake comprehensive land use planning to meet minimum requirements.

Through Envision Durham and the associated Growth Management Study, the Region undertook work in consultation with the City of Pickering, Town of Ajax, Town of Whitby,

City of Oshawa and Municipality of Clarington to delineate the Protected Major Transit Station Area boundaries, and set a minimum density of 150 people and jobs per hectare to support local planning contexts and Provincial policy requirements.

This Amendment conforms to the Durham Regional Official Plan, the Growth Plan for the Greater Golden Horseshoe and is consistent with the Provincial Policy Statement.

Amendment:

The Official Plan of The Regional Municipality of Durham is hereby amended as follows:

- 1) Adding policy language to certain sections and renumbering some sections of the Durham Regional Official Plan as per Table 1 attached hereto; and
- 2) Introducing Schedule 'C5' to the Durham Regional Official Plan, as illustrated on Exhibits 1 and 2.

Implementation:

- 1) Notwithstanding the land use designations illustrated in the Regional Structure of the Durham Regional Official Plan on Schedules 'A4' and 'A5', for lands identified as Protected Major Transit Station Areas on Schedule 'C5', the policies for Protected Major Transit Station Areas shall apply. The provisions set forth in the Durham Regional Official Plan regarding the implementation of the Plan shall apply in regard to this Amendment.

			conservation uses.”
28.		8A.2.11	<ul style="list-style-type: none"> • Add new policy to read as follows: <p>“The following land uses will be prohibited in Protected Major Transit Station Areas:</p> <ol style="list-style-type: none"> a) Automobile-oriented uses such as drive-through establishments, gasoline stations, service stations, and car washes; and b) Land extensive uses such as automobile dealerships with outdoor vehicle storage and display areas, warehouses and storage facilities, including self-storage facilities.”
29.		8A.2.12	Notwithstanding any other policies of this Plan to the contrary, <i>sensitive uses</i> are not permitted on the lands located within the Courtice Protected Major Transit Station Area, east of Courtice Road and south of Baseline Road in the Municipality of Clarington, due to proximity to the Darlington Nuclear Generation Station.
30.		8A.2.13	<ul style="list-style-type: none"> • Add new policy to read as follows: <p>“Development within Protected Major Transit Station Areas will offer convenient, direct, sheltered pedestrian access from high-density development sites to neighbouring Commuter Stations or Transportation Hubs, recognizing matters of accessibility for persons with disabilities, pedestrians, cyclists, and connections to a variety of transportation modes.”</p>
31.		8A.2.14	<ul style="list-style-type: none"> • Add new policy to read as follows: <p>“Protected Major Transit Station Areas shall be planned to accommodate a minimum overall density target of 150 people and jobs per <i>gross</i> hectare, in accordance with the Growth Plan for the Greater Golden Horseshoe. In cases where a Protected Major Transit Station Area and an Urban Growth Centre or Regional Centre overlap, the higher density requirements shall apply.”</p>
32.		8A.2.15	<ul style="list-style-type: none"> • Add new policy to read as follows:

Item	Old Section Number	New Section Number	Details of Policy Amendment
			<p>“The Region, in consultation with the area municipalities and Metrolinx may, by amendment to this Plan, designate additional Protected Major Transit Station Areas coincident with planning for existing and future rapid transit facilities or stations.”</p>
33.		8A.2.16	<ul style="list-style-type: none"> • Add new policy to read as follows: <p>“Local road and private access spacing and access permissions to Regional arterial roads within Protected Major Transit Station Areas will be addressed on a case-by-case basis to the satisfaction of the Region.”</p>
34.		8A.2.17	<ul style="list-style-type: none"> • Add new policy to read as follows: <p>“The Province of Ontario has authorized the use of Inclusionary Zoning within Protected Major Transit Station Areas, to require the provision of affordable housing units within new developments. To support the application of Inclusionary Zoning:</p> <ol style="list-style-type: none"> a) A Regional Assessment Report shall be completed which includes an analysis of demographics, income, housing supply, housing need and demand, current average market prices and rents and an analysis of potential impacts on the housing market, having regard to Section 4.3 of this Plan; and b) Area municipalities are encouraged to consider the application of Inclusionary Zoning in their respective Protected Major Transit Station Area through subsequent secondary planning, or equivalent, and zoning bylaw amendment processes.”
35.		8A.2.18	<ul style="list-style-type: none"> • Add new policy to read as follows:

Item	Old Section Number	New Section Number	Details of Policy Amendment
			<p>“Area municipal official plans shall include detailed policies, for each Protected Major Transit Station Area, which will:</p> <ul style="list-style-type: none"> a) Delineate Protected Major Transit Station Area boundaries coincident with boundaries identified in Schedule ‘C5’ and provide detailed land use designations within the boundary; b) Establish minimum density, population, employment and housing targets to demonstrate achievement of the overall target of at least 150 people and jobs per ha; c) Establish a minimum job target for Protected Major Transit Station Areas; d) Enable alternative development standards to support transit-oriented development, including but not limited parking requirements which support the use of transit; e) Support the creation of focal points by concentrating the highest densities in close proximity to Commuter Stations or Transportation Hubs; f) Include policies or approaches to ensure that the heights and densities of buildings are appropriately scaled to ensure compatibility with neighbouring lower density residential areas; g) Include policies to ensure that required transportation, servicing and other infrastructure is in place prior to, or coincident with new development; h) Support the efficient use of land, including requirements for structured parking, and shared parking as part of new development; i) account for the retention or replacement of existing station access infrastructure (pedestrian, bus, cycle, pick-up and drop-off, and vehicle parking), as well as the

Item	Old Section Number	New Section Number	Details of Policy Amendment
			<p>protection for future facility expansion when new development on existing GO station lands is proposed;</p> <p>j) Incorporate Urban Design and Sustainability Guidelines to guide the desired density, built form, building placement, access requirements and approaches for a pedestrian oriented public realm, that:</p> <ul style="list-style-type: none"> i. Provide appropriate transitions in building heights to surrounding areas and public spaces; ii. Direct that all development will be designed to be pedestrian-oriented and accessible to all ages and abilities; iii. Require buildings to frame streets, with frequent pedestrian entrances; iv. Restrict vehicular access to private property from adjacent local roadways; v. Support the use of rear lanes to serve development loading, servicing and vehicular parking access requirements rather than strictly along local public streets, where appropriate; vi. Require vehicular parking to be located below grade or located in a manner to minimize the visual impact on streets, parks, open spaces, pedestrian walkways and other land uses. With the exception of bus parking, surface parking will be minimized; vii. Incorporate the use of design elements to assist with orientation, including wayfinding and the use of gateways and entrance feature; viii. Require that connections to the Commuter Stations or

Item	Old Section Number	New Section Number	Details of Policy Amendment
			<p>Transportation Hubs include pedestrian weather protection and station way-finding; and</p> <ul style="list-style-type: none"> ix. Establish sustainable design measures and key sustainability principles for development in Protected Major Transit Station Areas; <p>k) Include policies that encourage place-making through policy approaches that:</p> <ul style="list-style-type: none"> i. Ensure a well-defined public realm that provides active gathering spaces, pedestrian destinations and connections; ii. Support the establishment of integrated trails, parks and open space systems for various levels of use year-round; iii. Provide active streetscapes with sidewalks or multi-use paths on both sides of all roads, and related for pedestrian amenities; iv. Encourage streets and boulevards to be designed to allow for patios, sitting areas, while ensuring adequate space for pedestrians and streetscape plantings for shade and beautification; v. Encourage sustainable technologies, permeable pavers, low impact development techniques, and designs which support the use of renewable energy in the design of new development, the public realm and streetscapes. <p>l) Include sustainable transportation policies that:</p> <ul style="list-style-type: none"> i. Ensure that road designs support transit

Submission Number and Name	Description of Submission	Regional Staff Response
Area Municipalities (AM)		
Town of Ajax AM 001-001	When will the Planning Department consider the comments and recommendations from municipalities on land conversions?	<p>The employment conversion requests have been addressed by the Region's Growth Management Study consultant through the Employment Strategy Technical Report which was released on September 24, 2021.</p> <p>Recommendations on the employment conversions brought to Regional Planning and Economic Development Committee and Council's consideration coincident with staff's recommendations on the PMTSA Amendment.</p>
Town of Ajax AM 001-002	<p>While staff generally support the delineation of the boundaries, the absence of policy that allow minor refinements to the boundaries has the potential to result in a number of minor amendments that could be costly and time consuming; and can negatively impact positive planning objectives.</p> <p>Staff request that a reconsideration or revised policy be introduced to permit minor adjustments to the boundaries of the PMTSA without amendment to the Plan, as long as the general intent of the Plan is maintained.</p>	Disagree. The Ministry of Municipal Affairs and Housing in their comments have advised that the requested local minor refinement process cannot occur as this approach would not conform to the Planning Act or A Place to Grow Act. The delineations once approved in the Regional Official Plan may only be modified by way of an amendment to the Regional Official Plan.
City of Pickering AM 002-001	The bulleted points in relation to Sections 16(16) and 17 of the <i>Planning Act</i> are accidentally shown with formatting issues.	Comment noted.
City of Pickering AM 002-002	Staff, through previous comments requested to the Region to revise the policy direction to allow	The Preamble of the Recommended Amendment encourages the use of Secondary Plans to implement the policy

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>completion of Secondary Plans, block plans or equivalent.” The proposed change has not been included in the amendment.</p> <p>It is requested that the Region consider wording in the Basis of the ROPA and in proposed new policy 8A.2.16 to permit an equivalent process to a secondary planning process for the establishment of PMTSA policies.</p>	<p>framework at the area municipal level. The term “and equivalent” has been added to the Preamble of the amendment. Policy 8A.2.18 of the Recommended Amendment proposes that Area municipal official plans shall include detailed policies, for each Protected Major Transit Station Area. The proposed policies require more detailed planning to be undertaken by the area municipalities for PMTSAs.</p> <p>For Policy 8A.2.17 that references “secondary planning and zoning bylaw amendment processes” in relation to inclusionary zoning, the term “or equivalent” has been added to the amendment.</p>
City of Pickering AM 002-003	For proposed policy 8A.1.4, consider if the use of “...foster innovation and entrepreneurship” is appropriate in the context of describing a land use as a goal for how PMTSA should be developed	Comment noted. The phrase “foster innovation and entrepreneurship” is intended to provide direction to the goals of a PMTSA and is appropriate as a broad land use goal for how a PMTSA may be developed.
City of Pickering AM 002-004	For proposed policy 8A.2.16, consider including a cross-reference to DROP policy 4.3.2 regarding affordable housing	Comment noted. The suggested cross reference has been added to Policy 8A.2.17 a).
City of Pickering AM 002-005	For proposed policy 8A.2.17 (a) - 8A.2.17 (d) consider alternative wording to proposed policy language. Proposed changes include adding “job ratio” and clarifying the mechanisms for achieving these minimums. Suggested other grammar improvements.	Comment noted. Use of a job ratio is one approach to satisfy minimum job requirements Detailed area specific policies, such as supporting employment, can be achieved through local municipal policies and through the review and approval of development applications, keeping in mind site specific conditions.
City of Pickering AM 002-006	In the implementation section of the ROP, consider including the following policy:	Agree. A new Policy 15.8 has been added to the recommended Amendment.

Submission Number and Name	Description of Submission	Regional Staff Response
	<ul style="list-style-type: none"> a policy clarifying amendments to the PMTSA boundaries require a Regional Official Plan Amendment. 	
City of Pickering AM 002-007	In the Interpretation section of the ROP, consider providing clarification regarding the applicability of policies associated with overlapping designations within PMTSAs.	Comment noted. Policy 8A.2.14 of the recommended Amendment indicates that where overlapping delineations occur, that the higher density requirement shall apply.
Municipality of Clarington AM 003-001	Staff request that the Region amend the proposed draft amendment to include and/or amend the policies as suggested in previous staff reports. This would create a strong foundation for which local area municipalities can work from when planning the PMTSAs.	<p>Comment noted. See earlier responses in Commissioner’s Report #2021-P-21.</p> <p>Section 16(16) of the Planning Act indicates that if an official plan contains policies for protected major transit station areas, it must also contain policies that identify the number of residents and jobs collectively per hectare that are planned to be accommodated within the area, and require official plans of the relevant lower tier municipality to identify the authorized uses of land in the area and of buildings or structures on lands in the area.</p> <p>Section 2.2.4.6 of the Growth Plan indicates that within MTSA’s, land uses and built form that would adversely affect the achievement of the minimum density targets in this Plan will be prohibited. Additional policies are provided in 2.2.4.8 and 2.2.4.9. The recommended amendment achieves conformity with the policies of the Growth Plan, by including the appropriate level of detail in the Regional Official Plan.</p>
Municipality of Clarington AM 003-002	The municipality requests that the implementing ROPA be clear in terms of respecting the role of the local Council as being the final decision maker in terms of zoning and site plan control.	Comment noted. Policy 8A.2.30 of the recommended Amendment states: “In the preparation of area municipal zoning by-laws, Councils of the area municipalities shall develop permissive zoning within Urban Growth Centres, Regional Centres,

Submission Number and Name	Description of Submission	Regional Staff Response
		Protected Major Transit Station Areas and along Regional Corridors, as an incentive to implement higher density, mixed-use development in these areas consistent with the intent of this Plan.” Existing Policy 8A.2.29 was amended to include reference to “PMTSAs” in light the role of the local Councils to administer zoning by-laws.
Municipality of Clarington AM 003-003	<p>Clarington Staff feel there is a missing component in the Region’s proposed ROPA with relation to Sustainability and its link to Mobility within the Region.</p> <p>The ROP policies should incorporate sustainable design measures and key sustainability principles to guide the policies and be a driving force of the design of the Region’s PMTSAs. Staff feel the Region’s policies need to emphasize more frequent transit to connect with the Major Transit Station Areas.</p> <p>At a site-specific level, Staff would like:</p> <ul style="list-style-type: none"> • the Region to incorporate clear minimum requirements for sites and buildings. • the Region require local area municipalities to include appropriate Green Building Standards as a part of local MCRs, Secondary Plans and Development Application Review processes. 	<p>Agree. Policy 8A.2.18 has been revised to include reference to Urban Design and Sustainability Guidelines.</p> <p>Envision Durham and the new Regional Official Plan will address sustainability principles as an overarching goal. Sustainability targets for individual buildings are more appropriately implemented at the area municipal level.</p>
Municipality of Clarington	Staff suggest that the Region update the PMTSA policies to incorporate the 6 Key Economic	Through Envision Durham, the new ROP will incorporate a new strategic direction and chapter related to a “Prosperous

Submission Number and Name	Description of Submission	Regional Staff Response
AM 003-004	Development Sectors in the Region's Economic Development Strategy	Economy". The Region's Economic Development Strategy and Action Plan will be referenced in this new Chapter. It is proposed that the Strategic Direction will not list specific sectors as the Economic Development Strategy may be amended from time to time, and it is, in fact, in the process of being updated at this time.
Municipality of Clarington AM 003-005	The delineation of MTSA's should be conceptual, similar to the current policies for Regional Centres. The detailed delineation and boundary should be left to local Official Plans, Secondary Plans and/or Master Block Plans. This approach will respect the local council/municipality in guiding development through local planning tools, will reduce unnecessary ROPA's for minor changes, and will add certainty as developers will continue to deal with municipalities as the one window for development applications.	Disagree. Delineation of MTSA boundaries is a matter of Growth Plan conformity, as has been confirmed by MMAH staff. MMAH have also confirmed that any changes to the delineation of an approved MTSA will require an amendment to the Regional Official Plan. The Growth Plan also directs upper and single tier municipalities to delineate "Strategic Growth Areas" in their official plans. Through the Envision Durham Proposed Policy Directions , the Region indicated that detailed delineations will be included for strategic growth areas in the ROP, including MTSA's.
Municipality of Clarington AM 003-006	Clarington supports the idea of a Regional Community Improvement Plan (CIP) but note that decisions related to development within current and future secondary plans within MTSA's should not be weakened by Regional CIPs.	Any Regional CIP would seek to uphold regional policy objectives. Regional staff are currently investigating the development of a Regional CIP that would support the provision of affordable housing and office attraction.
Municipality of Clarington AM 003-007	The current document does not address the importance of integrating open spaces and community uses in conjunction with increased minimum residential densities. Staff encourages the Region to consider implementing additional policies and standards regarding	Policy 7.3.14 of the ROP provides policies for area municipalities when they are considering secondary plan updates, including addressing high quality open spaces and community services and facilities. For context, the proposed policy directions for Envision Durham also speak to

Submission Number and Name	Description of Submission	Regional Staff Response
	the inclusion of these community attributes.	encouraging the integration of recreation, parks, and open spaces with compatible land uses to promote complete and healthy communities in the new ROP.
Municipality of Clarington AM 003-008	In relation to policy 8A.1.4, the reference to “foster innovation and entrepreneurship” may require some additional direction from the Region to clarify the expectations on how this policy is intended to be applied in a mixed-use context.	Comment noted. Policy 8A.2.15 is proposed as a general policy objective, signalling the importance of encouraging and supporting for innovation and entrepreneurship as a lens for considering and reviewing development applications, which is similar to other language in the existing ROP.
City of Oshawa AM 004-001	Staff are supportive of Oshawa Station no longer being proposed as an MTSA at this time due to limited ability to intensify the site.	Agree.
City of Oshawa AM 004-002	City staff continue to not support the requirement for the completion of secondary plans for PMTSAs, and would recommend instead to use alternative approaches such as other studies and urban design plans.	Comment noted. Protected Major Transit Station Areas offer unique opportunities to develop mixed use communities. Approaches that are responsive to local processes, which may include an area specific official plan amendment, Part II Plan or a secondary plan would ensure that detailed land use designations and policies are provided that support transit and pedestrian development and design while being responsive to local context.
City of Oshawa AM 004-003	Staff note that these policies should be contingent upon Metrolinx completion of its Environmental Assessment for the Oshawa-Bowmanville extension. Policies need to be in place to address the possibility of the stations not being constructed.	The recommended Amendment establishes the conditions for TOD and station development and in keeping with the Initial Business Case Update for the GO East extension. With the policies in place, new stations along the corridor can advance based on TOD principles. In November of 2019 Regional Council directed staff to advance the implementation of a Regional Official Plan Amendment to address MTSA's as part of the Region's position on the GO East extension.
City of Oshawa	In response to proposed Policy 8A.2.16, it is staff's opinion that	Policy 8A.2.17 encourages area municipalities to consider the application of

Submission Number and Name	Description of Submission	Regional Staff Response
AM 004-004	the lower-tier municipalities should be able to determine if inclusionary zoning in PMTSA is appropriate. Local area municipalities are the ones responsible for implementing and monitoring inclusionary zoning. Some municipalities may have challenges with monitoring.	<p>Inclusionary Zoning in their respective Protected Major Transit Station Area through subsequent secondary planning and zoning bylaw amendment processes.</p> <p>Policy 8A.2.17 also signals that the Region will complete a Regional Assessment Report to assist with consideration of inclusionary zoning.</p>
City of Oshawa AM 004-005	Staff continue to be of the opinion that the reduced minimum parking standards should be encouraged but not mandatory. Parking issues can be localized in nature and it may be difficult for the Region to develop policy language for universal application across the local area municipalities	Regional staff support the principle of reducing parking requirements for new development, to support existing and planned higher order transit service, improve built form outcomes and reduce the costs of development by eliminating excessive parking. Reduced parking standards in proximity of rapid transit stations supports heightened transit use and active transportation, reduces GHG emissions and helps to reduce development costs to support housing affordability.
City of Oshawa AM 004-006	<p>There are a number of existing uses within the proposed delineated areas that will become non-conforming uses. Future land use studies will need to conform to those policies concerning permitted and prohibited uses.</p> <p>Staff note that Policy 2.1.8.4 of the O.O.P., which will guide the integrated Master Land Use and Urban Design Plan, Transportation Master Plan and Municipal Class Environmental Assessment being prepared for the Central Oshawa P.M.T.S.A., already directs that restrictions on automobile-oriented land uses be implemented.</p> <p>Staff are also seeking clarification on what compatible employment</p>	<p>The recommended Amendment is intended to promote and establish new uses that are higher in density and supportive of transit-oriented development.</p> <p>The continuation of existing uses is already addressed in the Regional Official Plan through existing policy 14.5.4 which states:</p> <p><i>Notwithstanding Policy 14.5.1, this Plan is not intended necessarily to prevent the continuation, expansion, or enlargement of uses which do not conform to the designations and provisions of this Plan. At their sole discretion, the Councils of the area municipalities may zone to permit the continuation, expansion or enlargement of legally existing uses, or the variations to similar uses, provided that such uses:</i></p> <p><i>a) have no adverse effect on the present uses of the surrounding lands or the implementation of the provisions of this Plan;</i></p>

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>uses means. Would these be uses that are normally permitted within an Employment Area designation.</p>	<p><i>b) comply with Provincial Minimum Distance Separation formulae, as amended from time to time, if applicable;</i> <i>c) are accessible by a public road which is maintained by the appropriate authority as open to traffic on a year-round basis and is of a standard of construction adequate to provide for the additional traffic generated by the proposed use;</i> <i>d) are subject to any conditions that may be contained in an area municipal official plan;</i> <i>e) where located on the Oak Ridges Moraine; were lawfully existing as of November 15, 2001; and where any expansion or enlargement thereto or variation to a similar use is implemented in conformity with Parts III and IV of the Oak Ridges Moraine Conservation Plan, which contains policies intended to maintain, improve or restore the ecological and hydrological integrity of the Moraine; and</i> <i>f) where located in the Protected Countryside of the Greenbelt Plan Area; were lawfully existing as of December 15, 2004; and where any expansion or enlargement thereto or variation to a similar use is implemented in conformity with the Greenbelt Plan”.</i></p> <p>Land use compatibility within Employment Areas is informed by provincial policy and updates to these policies are being considered as part of the larger Envision Durham process.</p>
<p>City of Oshawa AM 004-007</p>	<p>Staff request clarification on what “sheltered” means in the context of this new Policy 8A.2.12 (e.g. does sheltered mean fully enclosed? Roofed? Separated by landscaping?). Further, clarification on ownership is requested. Clarity is also requested on what is meant by “Neighbouring...Transportation Hubs”. Does this mean that development outside of but adjacent to a Transportation Hub</p>	<p>The recommended amendment includes reference to providing convenient, direct, sheltered pedestrian access to stations. The recommended amendment is intended to be broad, in recognition that detailed implementation will occur through area municipal policies, the consideration of development applications and site-specific considerations. Therefore, specific reference to ownership, design, and location do not form part of the recommended amendment.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>will need to provide sheltered pedestrian access to just the boundary of the Hub?</p> <p>Staff recommend providing a measurable distance to define “neighbouring” to help inform the need to provide sheltered pedestrian access from high density development sites to neighbouring Commuter Stations or Transportation Hubs</p>	
<p>City of Oshawa AM 004-008</p>	<p>Staff note that the delineation of the proposed Thornton’s Corners GO Station P.M.T.S.A. does not align with the property lines west of Fox Street. Staff previously requested that the Region adjust the western boundary along Fox Street to better align with the property lines. The Region did not consider this request and informed staff that they used the edge of the new rail infrastructure for the westerly boundary</p>	<p>The western boundary of recommended delineation of the Thornton’s Corners PMTSA extends to the limits of the CP Rail Spur and proposed future Metrolinx Rail Spur. The boundary goes beyond Fox Street to capture the lands between Fox Street and the north-south CP Rail spur for future development opportunities.</p>
<p>City of Oshawa AM 004-009</p>	<p>Staff note that the Thornton’s Corners GO Station M.T.S.A. western boundary has been shifted from the Oshawa-Whitby boundary to east of Thornton Road South and west of Fox Street. Staff support further discussions with the Region on the proposed station location and determining an M.T.S.A. boundary that reflects an appropriate “sphere of influence” around the station.</p>	<p>The western boundary of the recommended PMTSA delineation of the Thornton’s Corners GO Station is shown along the edge of the existing CP Rail Spur and proposed Metrolinx Rail Spur. The twinning and weaving of rail spurs in this area will represent a significant change and could affect the potential viability or feasibility of the extension of Stellar Drive. Until this question is resolved through a future EA and detailed design work, it is appropriate to limit the westerly boundary of the PMTSA boundary to the proposed rail spurs.</p>
<p>City of Oshawa AM 004-010</p>	<p>City and Regional staff should engage in further conversation to make the MTSA more viable and on advancing the Environmental Assessment for the extension of</p>	<p>Comment noted. It is recognized that pedestrian connections to points north and west are both a desire of the Region and the City. Further discussions with Metrolinx</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>Stellar Drive from Thornton Road South to the westerly terminus of Laval Drive.</p> <p>The proximity to Trent University Oshawa Campus makes the MTSA a major destination along the future GO Rail service. This has been captured in the City's plan to provide a multi-use path along Thornton Road South to connect the campus to the planned station.</p>	<p>would also be required as they design the railway spur.</p>
Agencies (A)		
<p>Kawartha Pine Ridge District School Board (KPRDSB)</p> <p>A 001-001</p>	<p>Staff have no issues with the proposed amendment with the context of their mandate.</p> <p>KPRDSB is experiencing accommodation pressure in the Courtice and Bowmanville areas. KPRDSB is looking forward to continuing working with the Region and local area municipality to ensure that the appropriate number, size, and location of school sites are considered.</p>	<p>Comment noted.</p>
<p>Canada Post</p> <p>A 002-001</p>	<p>No objections. Requesting to be included on future comments if the projects entail residential units, high rises, or retail space that will require mail service. Also, any road work improvements that affect existing Community Mailbox locations for the affected transit areas in planning and design.</p>	<p>Comment noted.</p>
<p>Metrolinx</p> <p>A 003-001</p>	<p>A lower minimum density target of 150 residents and jobs per hectare may be approved by the Minister, where it has been demonstrated</p>	<p>Comment noted. The recommended amendment includes a policy that requires a minimum of 150 people and jobs per hectare within each of the PMTSAs. The</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	that this target cannot be achieved.	respective area municipalities may choose to further refine more specific targets by land use category to demonstrate how the overall target of 150 people and jobs per hectare will be achieved.
Metrolinx A 003-002	Interested in reviewing the Regional Assessment Report (identified in proposed policy 8A.2.1.6). Metrolinx is interested in reviewing the housing analysis.	Comment noted. The Region has engaged N. Barry Lyon Consultants to undertake the comprehensive housing assessment. Once drafted, the Region would welcome input from Metrolinx, and other agencies.
Metrolinx A 003-003	The Region should consider including Metrolinx-owned properties that are within proximity to the proposed station area boundaries. Recommended to include 740 Champlain Ave within the PMTSA delineated boundary of Thornton's Corners.	Comment noted. Where appropriate and in keeping with the Region's delineation methodology, properties owned by Metrolinx have been included in the proposed delineations. The recommended PMTSA delineation for Thornton's Corners does not extend west of the CP Rail Spur and proposed Metrolinx Rail Spur.
Metrolinx A 003-004	Development located within 300 metres of the rail corridor shall be subject to the rail safety requirements as outlined in the Federation of Canadian Municipalities (FCM) and the Railway Association of Canada (RAC) Guidelines and Metrolinx's Adjacent Development Guidelines.	Comment noted.
Metrolinx A 003-005	Metrolinx is supportive of increased pedestrian access routes to our Stations. It should be noted that should development wish to pursue access, coordination will be required with our TOC programs and the Proponent will have to enter into agreements, as related to that access.	Comment noted.
Metrolinx A 003-006	Construction adjacent to, or over/under our corridors will be subject to the appropriate permitting process and agreements may need to be	Comment noted.

Submission Number and Name	Description of Submission	Regional Staff Response
	executed between Metrolinx and the property owners.	
Metrolinx A 003-007	Thornton’s Corners should match the Metrolinx naming standard of ‘Thornton’s Corners East’	Comment noted. While the naming convention of “East” has been used in Metrolinx documents, the denotation of “East” may be confusing for the rider, since there is no “West” station.
Metrolinx A 003-008	Specify in proposed policy 8A.2.17 that new development on existing GO station lands must account for the retention or replacement of existing station access infrastructure (pedestrian, bus, cycle, pick-up and drop-off, and vehicle parking), as well as the buildings, utilities and protection for future facility expansion.	Additional language has been added to Policy 8A.2.18 to address this comment.
WSP on behalf of CN Rail A 004-001	<p>To protect the long-term operation of rail systems, provincial policy sets out that sensitive land uses be appropriately designed, buffered and/or separated from rail facilities. The 2020 Provincial Policy Statement (PPS) requires sensitive land uses be planned and developed to avoid rail facilities, and where avoidance is not possible, to minimize and mitigate potential adverse effects from odour, noise and other contaminants.</p> <p>Rail yards would be classified by the D-6 Guidelines as Class III Industrial Facilities because of their scale, sound profile and continuous operation. Sensitive land uses are not recommended to be developed within 300 metres of a Class III facility, and when proposed a feasibility analysis is required.</p>	<p>Comment noted. The new Regional Official Plan, being developed through Envision Durham is addressing the implementation of the 2020 Provincial Policy Statement and will include policy language to address land use compatibility. Existing ROP policy 8C.2.1 states that “Employment Areas, as designated on Schedule 'A', are set aside for uses that by their nature may require access to highway, rail, and/or shipping facilities, separation from sensitive uses. The Oshawa rail yard is within an existing Employment Area.”</p> <p>Policy 2.2.5 of the current ROP states that development within the Region is to take into account: aesthetics; sources of noxious or hazardous substances; noise, odour, dust and light pollution; reduction of energy consumption; and the provision of social and cultural facilities.</p> <p>Further, policy 2.3.3 of the current ROP states that where residential and other noise sensitive land uses are proposed</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>Where the Regional government or local area municipalities are considering the development of sensitive land uses adjacent or major facilities, that the municipalities be consistent with the land use compatibility policies of the PPS.</p>	<p>within 300 metres of a railway corridor, regard shall be given to the noise, vibration and safety standards of the Ministry of the Environment, Conservation and Parks and the affected rail company through consultation with these agencies and, where necessary, by requiring the preparation of a noise and vibration analysis.</p>
<p>WSP on behalf of CN Rail A 004-002</p>	<p>It is important to understand that there is no specific decibel limit for CN operations contained in federal guidelines related to the construction or operation of rail facilities. The Canadian Transportation Agency is the federal body that assesses the reasonableness of noise associated with the construction or operation of a federal railway company. Those federal guidelines clearly state that, while the Agency may take provincial and municipal noise and vibration guidelines into account in its deliberations, the Agency is not bound by those guidelines.</p>	<p>Comment noted.</p>
<p>WSP on behalf of CN Rail A 004-003</p>	<p>The Oshawa Rail Yard is the only freight rail yard CN facility in Durham Region. This facility supports the use and activities at the General Motors Plant within proximity of the yard as the General Motors Plant has rail access to the north and west of the facility. This freight rail yard is an important component of the overall Durham Region economy and should be protected from encroachment by sensitive land uses, per Provincial Policy.</p>	<p>Comment noted.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
<p>WSP on behalf of CN Rail</p> <p>A 004-004</p>	<p>NPC 300 is a provincial environmental guideline that provides guidance on the proper control of sources of noises emissions to the environment. NPC 300 permits Class 4 mitigation in certain areas, however, in the context of proximity to a CN freight rail yard it is in our opinion not appropriate.</p> <p>The main benefit of Class 4 mitigation is a mutually beneficial relationship between the noise source and the noise receptor as part of the Environmental Compliance Approval (ECA) that is required for the noise source. As CN is federally regulated, that mutually beneficial relationship does not apply as CN is not subject to ECA requirements.</p>	<p>Comment noted</p>
<p>WSP on behalf of CN Rail</p> <p>A 004-005</p>	<p>Support for the removal of existing Oshawa GO Station as a Protected Major Transit Station Area (MTSA). Currently, the existing Oshawa GO Station is directly abutting a major facility (a rail yard) which is not compatible with sensitive land uses such as higher density residential development.</p>	<p>Comment noted.</p>
<p>WSP on behalf of CN Rail</p> <p>A 004-006</p>	<p>A key conclusion of the Durham Region Housing Intensification Study is that development around the Oshawa GO station is not appropriate for housing intensification. CN supports this recommendation.</p> <p>While the Study demonstrates that there are several Strategic Growth</p>	<p>Comment noted. Existing ROP policy 8C.2.1 states that "Employment Areas, as designated on Schedule 'A', are set aside for uses that by their nature may require access to highway, rail, and/or shipping facilities, separation from sensitive uses. The Oshawa rail yard is within an existing Employment Area."</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>Areas, the report does not reference land use compatibility as part of the rationale to support intensification in MTSA, and more specifically the development of high-density sensitive land uses within proximity to Class III facility such as a Freight Rail Yard.</p> <p>It is recommended that land use compatibility considerations reflect the policies of the PPS.</p>	<p>Policy 2.2.5 of the current ROP states that development within the Region is to take into account: aesthetics; sources of noxious or hazardous substances; noise, odour, dust and light pollution; reduction of energy consumption; and the provision of social and cultural facilities.</p> <p>Further, policy 2.3.3 of the current ROP states that where residential and other noise sensitive land uses are proposed within 300 metres of a railway corridor, regard shall be given to the noise, vibration and safety standards of the Ministry of the Environment, Conservation and Parks and the affected rail company through consultation with these agencies and, where necessary, by requiring the preparation of a noise and vibration analysis.</p> <p>This comment will be further addressed through the new Official Plan being developed through Envision Durham.</p>
<p>Central Lake Ontario Conservation Authority (CLOCA) A 005-001</p>	<p>The PMTSA's within the CLOCA watershed include:</p> <ul style="list-style-type: none"> • Whitby; • Thornton's Corners; • Central Oshawa; • Courtice; and • Bowmanville. <p>Interested in ensuring that natural hazards associated with flooding and erosion; protection and enhancement of natural heritage; and that stormwater management and servicing have been appropriately considered and integrated in relation to the PMTSAs.</p>	<p>Comment noted. The existing ROP (policy 2.2.7) does not permit development within: dynamic beach hazards; areas that would be rendered inaccessible to people and vehicles during times of flooding hazards, erosion hazards and/or dynamic beach hazards, unless it has been demonstrated that the site has safe access appropriate for the nature of the development and the natural hazard; and a floodway regardless of whether the area of inundation contains high points of land not subject to flooding. Development and site alteration may be considered in certain areas identified in accordance with relevant Provincial policies and regulations.</p> <p>As more detailed planning proceeds within PMTSAs, the protection of natural hazards</p>

Submission Number and Name	Description of Submission	Regional Staff Response
		and the impacts of stormwater management and servicing can be considered and addressed.
<p>Central Lake Ontario Conservation Authority (CLOCA)</p> <p>A 005-002</p>	<p>Within Courtice GO Station PMSTA, there is significant overlap between natural hazards and existing developed lands that are subject to flooding vulnerability at the intersection of Courtice Road and Baseline Road within the Tooley Creek Watershed.</p> <p>It is recommended that the new ROPA include policy direction with respect to improve nor worsen the existing flood vulnerable area. Ideally the development of the PMTSA would be a catalyst for removing flooding from table land areas through conveyance infrastructure improvements such as downstream culverts at Highway 401 and Courtice Road interchange.</p>	<p>Comment noted. The protection of the flood vulnerable area can be captured in the secondary plan for the Courtice PMTSA being prepared by the Municipality of Clarington. Regional staff and CLOCA staff are involved in the Steering Committee for this project and can collectively ensure this matter is considered.</p>
<p>Central Lake Ontario Conservation Authority (CLOCA)</p> <p>A 005-003</p>	<p>Provincial Policy does not permit development in hazardous lands. Accordingly, it is requested that PMTSA mapping and policy direction of the Courtice GO Station PMTSA not provide for new development within lands currently subject to flood hazards unless the flood hazard can be removed.</p>	<p>Comment noted. The protection of the flood vulnerable area can be captured in the secondary plan for the Courtice PMTSA being prepared by the Municipality of Clarington. Regional staff and CLOCA staff are involved in the Steering Committee for this project and can collectively ensure this matter is considered.</p>
Public Comments (P)		
<p>GHD</p> <p>P 001-001</p>	<p>Would like clarification as to why the delineation of Thornton's Corners no longer abuts Thornton Road.</p>	<p>The western boundary of the recommended PMTSA delineation of the Thornton's Corners GO Station is shown along the edge of the existing CP Rail Spur and proposed Metrolinx Rail Spur. The twinning and weaving of rail spurs in this area will</p>

Submission Number and Name	Description of Submission	Regional Staff Response
		represent a significant change and could affect the potential viability or feasibility of the extension of Stellar Drive. Until this question is resolved through a future EA and detailed design work, it is appropriate to limit the westerly boundary of the PMTSA boundary to the proposed rail spurs.
<p>Blackthorn Development Corp on behalf of 2400245 Ontario Inc.</p> <p>P 002-001</p>	<p>The subject lands are located within 399-425 Bayly Street West, in the Ajax GO Station MTSA boundary.</p> <p>The subject lands are currently within a Provincially Significant Employment Zone and are being used as an Automobile Dealership and Service Centre.</p> <p>It is requested that through the MCR process, that a conversion of the subject lands to permit a mixed-use development including residential land uses be considered.</p>	<p>The conversion of lands within MTSAs within designated Employment Areas are being addressed through the Envision Durham Growth Management Study - Employment Strategy Technical Report which was released on September 24, 2021.</p> <p>Recommendations on the employment conversions are being brought forward in a separate report to be considered concurrently with this recommended Amendment by Committee and Council. The subject lands have been recommended by staff for conversion as the lands are within the PMTSA boundary.</p> <p>Detailed land use designations within PMTSAs will be defined by the area municipalities within their respective planning documents.</p>
<p>Blackthorn Development Corp on behalf of 2400245 Ontario Inc.</p> <p>P 002-002</p>	<p>Requesting to revise proposed policy 8A.2.17 and 8.3.10 to include reference to Official Plan Amendments to clarify and support the ability of landowners to initiate private amendments.</p>	<p>Comment noted. The Growth Plan directs upper and single tier municipalities to delineate MTSAs in their plan. The policies of the Growth Plan would not permit the a privately initiated amendment to the Durham Regional Official Plan. Local official plan amendments may also be a conformity matter and would need to be completed by the respective area municipality.</p>
<p>Blackthorn Development Corp on behalf of 2400245 Ontario Inc.</p>	<p>Include policy language that would recognize legally existing land uses which can remain and expand in accordance with the</p>	<p>Area municipalities will provide detailed land use designations within their respective planning documents. The intent of the current Regional Official Policy 14.5.4, is to permit the continuation,</p>

Submission Number and Name	Description of Submission	Regional Staff Response
P 002-003	current Regional Official Policy 14.5.4	expansion or enlargement of legally existing uses does not change as a result of the recommended Amendment for PMTSAs.
Blackthorn Development Corp on behalf of 2400245 Ontario Inc. P 002-004	Remove 'sheltered pedestrian accesses' or reference 'pedestrian access' for proposed policy 8A.2.12	Comment noted. The principle of pedestrian comfort and shelter is a principle that will encourage foot traffic. In this respect, future planning work undertaken to be at the area municipal level will provide detailed policies and designations to ensure that the principles of transit-oriented development and pedestrian oriented design that will respond to local context.
Blackthorn Development Corp on behalf of 2400245 Ontario Inc. P 002-005	Revise Policy 8A.2.16, Policy 8A.2.18 and Policy 8A.2.19 to include reference to 'extensive landowner consultation' in developing the Regional Assessment Report	Comment noted. Although extensive consultation for the Regional Assessment Report will be undertaken, the method consultation is not a matter ROP policy.
Blackthorn Development Corp on behalf of 2400245 Ontario Inc. P 002-006	Revise Policy 8A.2.17 and Policy 8A.2.18 to also permit phasing of infrastructure, provision or temporary or interim infrastructure to support new development which would permit development to proceed in a timely manner, provided the proposed development can be accommodated within the MTSA.	Comment noted. Policy 8A.2.19 references that the Region and area municipality "may" require coordination of development through Master Development Agreements to ensure infrastructure is coordinated within PMTSAs. Details of this particular development proposal would be considered following implementation of the PMTSA policies and delineation by the Town of Ajax.
Blackthorn Development Corp on behalf of 2400245 Ontario Inc. P 002-007	Policy 8A.2.17 (i), (j) and (k) are requested to be revised to be less prescriptive. It is more appropriate to include urban design, place making, and transportation policies within the context of local municipalities.	Comment noted. Policy 8A.2.18 directs area municipalities to include these considerations within their planning documents. The Region has an interest ensuring that that MTSA's are successful. Place making, transit orientation and pedestrian supportive measures are also of Regional interest.
Blackthorn Development Corp on behalf of	Revise Policy 14.10.4 to include 'implementing Official Plan Amendments and Zoning By-laws'	Comment noted. The intent of this policy is to direct the Region and area municipalities to work collectively to monitor the

Submission Number and Name	Description of Submission	Regional Staff Response
2400245 Ontario Inc. P 002-008	and 'consultation with affected landowners' to ensure clarity and consistency when evaluating new effect of new policies	implementation of the specific policies related to PMTSAs.
KLM on behalf of 1044971 Ontario Limited P 003-001	<p>The subject lands municipally known as 1218 Trulls Road, Municipality of Clarington is directly across the proposed MTSA in Courtice.</p> <p>Interested in the interconnected land use framework of the MTSA and the current employment land conversion request. Land use compatibility considerations have to be taken into account as sensitive land uses are being considered within the MTSA, which are adjacent to lands with a range of employment uses.</p> <p>As such, the proposed employment land conversion request is appropriate as the Courtice MTSA begins to accommodate more sensitive land uses.</p>	Comment noted. The employment conversion requests are being addressed through the Envision Durham Growth Management Study - Employment Strategy Technical Report which was released on September 24, 2021. Recommendations on the employment conversions are being brought forward in a separate report to be considered concurrently with this recommended Amendment by Committee and Council, and would enable the proposed PMTSAs.
IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family P 004-001	<p>There is an Employment Area Conversion request for 1766 Baseline Road, and a Settlement Area Boundary Request Expansion for 0 Courtice Road.</p> <p>There are no legislative requirements for municipalities to identify PMTSAs. Further, Section 17 (36.1.4) of the Planning Act stipulates that there are no appeal rights for any policies within an PMTSA. Removing the flexibility to appeal, the Region should give</p>	<p>Comment noted. The Region can identify any existing or planned higher order transit stop or station as a protected major transit station area. In November 2019, Regional Council directed staff to advance consideration of MTSA's for the existing and proposed GO Stations along the GO East Rail Line.</p> <p>Comments from MMAH recommend that the Region identify PMTSA to ensure that the appropriate sections of the Planning Act are addressed, including appropriate direction to lower tier municipalities.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	due regard on how the stated goals within a PMTSA may be achieved.	Recognizing stations as PMTSAs and delineating in the Regional Official Plan as per the policies of the Growth Plan allows the Region to advance housing affordability objectives and would allow the for the local municipalities to incorporate inclusionary zoning, should they decide to do so.
IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family P 004-002	PMTSA is not appropriate for the Courtice MTSA as it would introduce a level of prescriptiveness that risks the realization of redevelopment within this MTSA largely due to its greenfield development nature. A more flexible approach at the outset offers a better opportunity for achieving policy goals and adopting as circumstances evolve in this new growth area.	Comment noted. In November 2019, Regional Council directed staff to advance consideration of MTSA's for the existing and proposed GO Stations along the GO East Rail Line. Area municipalities have the flexibility to prescribe more detailed land use designations, policies and implementation approaches within the delineated PMTSA boundaries, while maintaining employment uses in these areas, subject to demonstrating how the overall density target of 150 people and jobs per hectare will be achieved.
IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family P 004-003	The policies with the MCR must have enough flexibility within them to allow meeting these targets in a phased and appropriate manner. A blanket solution across all applicable properties within the MTSA will not work, as site specific constraints and needs must be considered.	Comment noted. Detailed implementation approaches can be achieved through local municipal policies and through the review and approval of development applications, keeping in mind site specific conditions.
IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family P 004-004	Proposed Policy Direction 2.12 of achieving a ratio of 1 job for every 2 residents in the Region, or 50% employment. It is suggested that the Region assess the appropriateness of having 50 percent of the Region's employment forecast accommodated in Employment Areas.	The Envision Durham Growth Management Study – Employment Strategy Technical Report, provides information regarding how employment growth would be accommodated within Employment Areas. Within PMTSA boundaries, area municipalities may prescribe more detailed land use designations and policies which further encourage employment intensive uses, and support the achievement the

Submission Number and Name	Description of Submission	Regional Staff Response
	<p>We want to better understand how this policy direction will work alongside the Province's direction that MTSAs be planned for a minimum density target of 150 residents and jobs combined per hectare.</p> <p>We would like to see clarification of how these employment targets will ultimately be applied to specific sites and/or development proposals, including whether minimum targets for non-residential uses will be established by Regional policies or by local municipalities</p>	<p>overall density target of 150 people and jobs per hectare.</p>
<p>IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family</p> <p>P 004-005</p>	<p>Recognizing that 0 Courtice is within a Provincially Significant Employment Zone (PSEZ). We want the boundaries and appropriate MTSA designation to be properly acknowledged in the ROP.</p>	<p>Comment noted. PSEZs will be addressed through Envision Durham and the new ROP, and not through the PMTSA Amendment.</p>
<p>IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family</p> <p>P 004-006</p>	<p>It is also worth noting that while much of the Lakeshore GO line is designated as a Priority Transit Corridor in the Growth Plan, this is not true of the Courtice segment, which Schedule 5 of the Growth Plan identifies as a Committed GO Transit Rail Extension. While the future corridor may ultimately be added to the Priority Transit Corridor Network, MTSAs that are not on the network are still required to be transit-supportive, but they are not subject to the density targets for those MTSAs that are on the network.</p>	<p>Comment noted. Input received from staff at the Ministry of Municipal Affairs and Housing confirms that the Region is not limited to only identifying MTSAs on priority transit corridors but also, the four stations along the GO Lakeshore East extension, which can be subject to the proposed density targets.</p>
<p>IBI Group on behalf of 2610144 Ontario Limited</p>	<p>In combination with the existing employment uses in the Energy Park area, we feel this will</p>	<p>Comment noted. Lands within the PMTSAs are intended to accommodate a range of</p>

Submission Number and Name	Description of Submission	Regional Staff Response
<p>and the Lovisek family</p> <p>P 004-007</p>	<p>contribute greatly to ensuring new development around the GO station is not a “bedroom community” but rather a complete, transit-oriented community that is financially viable and implementable.</p> <p>Requiring an overly aggressive percentage of employment uses could result in substantial lands within the MTSA remaining undeveloped due to the realities of market conditions.</p>	<p>uses at densities which will support complete communities.</p> <p>Since the lands within the PMTSA would no longer be designated as Employment Areas in the Regional Official Plan going forward, an appropriate mix of higher transit-oriented uses would be permitted, taking into account market conditions.</p>
<p>IBI Group on behalf of 2610144 Ontario Limited and the Lovisek family</p> <p>P 004-008</p>	<p>Strongly believe that the inclusion of our client’s lands within the urban boundary will contribute to the Region fulfilling its growth targets and minimizes the risk of “siphoning growth” away from Durham to other GGH municipalities.</p>	<p>Comment noted. The Municipality of Clarington has also requested that the Courtice PMTSA boundary include an area outside the existing urban area boundary east of Courtice Road. The Land Needs Assessment for the Growth Management Study being undertaken through Envision Durham, the Region’s municipal comprehensive review will determine the need and location for any urban boundary expansions. It would be premature to recommend an urban boundary expansion in advance of the Land Needs Assessment being completed.</p>
<p>Erwin Waldinsperger</p> <p>P 005-001</p>	<p>Metrolinx announced that the GO Transit Lines from VIA/ GO Station would now be electrified. This will result in the elimination of at least one dozen excess noise areas along CP Bellville through to Oshawa.</p>	<p>Comment noted.</p>
<p>Erwin Waldinsperger</p> <p>P 005-002</p>	<p>Municipalities and residents in Durham need to know where future commuter traffic will impact neighbourhoods to 2050.</p>	<p>Comment noted.</p>
<p>Max Lysyk</p> <p>P 006-001</p>	<p>Interested in being notified about future meetings and decisions related to the ROPA MTSA.</p>	<p>Comment noted. Regional staff confirm that Mr. Lysyk is on the Envision Durham Interested Parties List.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
Ron Lalonde P 007-001	Ensuring that Durham Active Transportation Committee is involved in the commenting process	Comment noted. A presentation regarding the proposed PMTSA amendment was made at the September 16, 2021 Durham Active Transportation Committee meeting. Committee members had the opportunity to ask questions of Regional staff from Policy and Transportation Planning.
Bousfields Inc. on behalf of Brookfield Residential P 008-001	Brookfield’s lands are within the area proposed as a PMTSA for the future Courtice GO Train Station, specifically, a parcel directly north of the Metrolinx lands on the west side of Courtice Road. We continue to be generally supportive of the report and the revised policies and offer additional comments related to urban design, built form and density targets.	Comment noted.
Bousfields Inc. on behalf of Brookfield Residential P 008-002	<p>It is requested that draft policies be revised to clarify that it is the responsibilities of the local area municipalities to clarify how the minimum density target of 150 residents and jobs per hectare will be achieved.</p> <p>Draft policies 8A.2.10 and 8A.2.11 set out a list of permitted and prohibited built form typologies that would be more appropriate in the local area Official Plan than in the Region’s Official Plan. We propose that there should be different configurations of built form types other than apartments and stacked towns that can achieve the required minimum density targets such as grade related and apartment forms.</p>	<p>Policy 8A.2.18 b) has been revised to: “Establish minimum density, population, employment and housing targets to demonstrate achievement of the overall target of at least 150 people and jobs per ha”</p> <p>Policy 8A.2.10 a) of the recommended amendment has been modified to recognize a range of higher density residential uses, including multiple attached dwellings.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
	Listing examples of desired built form types in the Region's Official Plan can make it challenging to get an agreement on use of innovative built form typologies that have yet to be defined or named.	
Bousfields Inc. on behalf of Brookfield Residential P 008-003	Draft policy 8A.2.17(i) which states that municipal official plans will incorporate Urban Design Guidelines to guide the desired density, built form, building placement, access requirements and approaches for a pedestrian-oriented public realm. However, the subsequent sub-sections (i.e.: 8A.2.17(i)(i, – vii.) provide that there is an intention to address matters of Urban Design at the Regional level, through the Region's OPA. We would ask that the Region remove or revise these subsections to ensure that area municipal official plans provide the direction regarding building placement and access requirements, among others and not the Region's Official Plan.	Comment noted. The policies support good Urban Design practices implemented at the local level.

Submission Number and Name	Description of Submission	Regional Staff Response
<p>Bousfields Inc. on behalf of Brookfield Residential</p> <p>P 008-004</p>	<p>The draft Official Plan Amendment, policy 8A2.13 still does not provide the additional policy language that would confirm whether the density target would apply across the lands in each MTSA. As such, we respectfully request that the Region revise policy 8A.2.13 to provide that the density target shall be achieved on average across the entire MTSA. In this regard, there would be flexibility in the permitted built form and density types to achieve the density target.</p>	<p>Policy 8A.2.14 has been revised to “Protected Major Transit Station Areas shall be planned to accommodate a minimum overall density target of 150 people and jobs per <i>gross</i> hectare, in accordance with the Growth Plan for the Greater Golden Horseshoe. In cases where a Protected Major Transit Station Area and an Urban Growth Centre or Regional Centre overlap, the higher density requirements shall apply.”.</p>
<p>Weston Consulting on behalf of MODO Bowmanville Urban Towns Limited</p> <p>P 009-001</p>	<p>Subject lands consist of three parcels in the southwest corner of Brookhill Boulevard and Green Road, in the Municipality of Clarington, in the Bowmanville PMTSA. Commenting letter dated March 1, 2021 was submitted in response to the Major Transit Station Areas: Proposed Policy Directions report. It was requested that the Region establish a minimum density target for the Bowmanville MTSA that meets or exceeds the 150 residents and jobs per hectare. Furthermore, it was requested that locational characteristics of the subject lands be considered when advancing intensification objectives and goals.</p>	<p>Comment noted. All PMTSAs will be planned to achieve a minimum density target of 150 people and jobs per hectare.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
<p>Weston Consulting on behalf of MODO Bowmanville Urban Towns Limited</p> <p>P 009-002</p>	<p>There is currently a Draft Plan of Subdivision and a Zoning By-law Amendment being reviewed for the creation of three development blocks, four 6-storey residential apartments and townhouses. It is in our opinion that the proposed townhouse blocks be contemplated in active planning applications in proximity to the subject site to ensure compatibility and transition in scale.</p>	<p>Comment noted. The recommended Amendment would only be in full force and effect following approval by the province.</p>
<p>Weston Consulting on behalf of MODO Bowmanville Urban Towns Limited</p> <p>P 009-003</p>	<p>Generally supportive of the intent of proposed policies 8A2.9 and 8A.2.10, however it is requested that the Region modify policy 8A.2.10.to not preclude the categorization of high-density transit-oriented uses and high-density residential uses. More flexibility in the types of residential uses can better address local context, market, and built form compatibility.</p> <p>It is recommended that ground-related residential building types be permitted within the PMTSA be permitted adjacent to the external boundaries of the PMTSA to address compatibility and transition.</p> <p>It is in our opinion that ground-related residential uses can constitute as compact urban form and can achieve densities that support MTSA growth targets.</p>	<p>Policy 8A.2.10 a) of the recommended amendment has been modified to recognize a range of higher density residential uses, including multiple attached dwellings.</p>

Submission Number and Name	Description of Submission	Regional Staff Response
Weston Consulting on behalf of MODO Bowmanville Urban Towns Limited P 009-004	It is our opinion that proposed policies 8A2.9 and 8A.2.10.a) do not provide a wide enough range of land uses permissions to meet MTSA growth targets, especially for the lands that are located at the periphery of the MTSA growth areas.	Comment noted. Policy 8A.2.10 a) recognizes “multiple attached dwellings” as a unit type within PMTSAs.

October 21, 2021

Honourable Christine Elliott
Ministry of Health
777 Bay Street, 5th Floor
Toronto, ON M7A 2J3

Dear Minister Elliott:

On behalf of the Board of Health for the Simcoe Muskoka District Health Unit (SMDHU), I commend the strong progress being made in bringing COVID-19 under control through the public health measures and the vaccination campaign directed by the provincial government of Ontario. We continue to work collectively to complete the “final mile” of vaccination of the population while simultaneously continuing all activities of COVID-19 surveillance and case management/contact tracing.

The COVID-19 work has required an unprecedented quantity of resources, particularly human resources. Accordingly, boards of health have had to significantly augment their staffing specifically for the Mass Immunization Clinics. Salaries and related expenses of this greatly enhanced workforce (including transportation, supplies and equipment) have only been partially managed by the funding received from the province on July 22, 2021. SMDHU only received 42% of its COVID-19 funding request and costs to date have far exceeded that funding. To add to 2021 cash flow pressures, SMDHU would require the hiring of nursing and administrative staff to implement the provincially mandated vaccine clinics for 5–11-year-olds in Simcoe County and the District of Muskoka as well as implement the “booster” clinics for specific populations. With no immediate COVID-19 funding, these pressures for the end of 2021 compound finance issues for SMDHU and will potentially impede our ability to finance the human resources required.

The SMDHU Board of Health via management staff have been in active communication with Ministry of Health staff specifically related to the one-time funding COVID-19 requests. Unfortunately, the Board of Health experienced cash flow issues in July due to the lack of COVID-19 funding from the Ministry of Health to the point, that the Board was forced to seek approval from its four obligated municipalities to borrow from a bank up to \$5M to cover salaries and expenses for COVID-19 activities. SMDHU also sought and received from the Ministry of Health an advance in funding for the Ministry portion of the cost-shared budget to ensure that payroll commitments and the payment of vaccination expenses could be met. On October 20, 2021, the Board of Health approved a motion requesting that boards of health immediately receive the *COVID-19 Extraordinary Costs* and COVID-19 Vaccine Extraordinary Costs funding as articulated in SMDHU’s Q2 financial statement and that the Ministry of Health commit in writing to:

- (1) extend COVID-19 funding in 2022;
- (2) establish funding in 2022 for public health recovery activities; and,

- (3) increase provincial funding for public health base budgets proportional to the municipal levy increase needed in 2022 to maintain capacity for public health program delivery.

The financial pressure from not having access to the required amount of COVID-19 funding from the province, with the simultaneous requirement to respond to the pandemic through surveillance, case and contact management, outbreak response, education and enforcement of the changing requirements of the *Reopening Ontario (A Flexible Response to COVID-19) Act*, and the vaccination of the population has placed the Board in a precarious financial situation. If there is not sufficient funding from the province, there is also a sizeable risk that SMDHU will have a large year-end deficit moving into 2022 based on 2021 COVID-19 expenses that may require a large municipal levy increase to eliminate the deficit and to address the response needs in 2022.

For these reasons the SMDHU Board of Health urges the provincial government to approve and immediately flow the amount required by each health unit of one-time *COVID-19 Extraordinary Costs* and *COVID-19 Vaccine Program Extraordinary Costs*.

Thank you for considering this urgent matter.

Sincerely,

Honourable and Dear Sirs:

**Support Resolution from the Council of Huron County passed October 20th
re: Homelessness Task Force**

Please be advised the Council of the Municipality of Chatham-Kent at its regular meeting held on November 8, 2021 supported the following resolution:

“WHEREAS the County of Huron has established a “Huron County Homelessness Task Force” to address the rapidly increasing issue of homelessness in the County.

THAT the County of Huron, due to the substantial increase in chronic homelessness not only in Huron County but across Ontario and Canada, requests the Province of Ontario and the Government of Canada to identify Homelessness a “Provincial” and “National Crisis” across the Province of Ontario and Canada.

AND FURTHER THAT the Province of Ontario and Government of Canada acknowledge that lack of resources to support addiction and mental health programs to be a leading cause of homelessness.

AND FURTHER THAT the County of Huron requests the Province of Ontario and Government of Canada to provide further financial support for housing and homelessness programs as well as increase funding to mental health and addiction services.”

If you have any questions or comments, please contact Judy Smith at judys@chatham-kent.ca

Sincerely,

Judy Smith, CMO
Director Municipal Governance
Clerk /Freedom of Information Coordinator

**Support Resolution from the Council of Kitchener passed October 18th
re: Renovictions**

Please be advised the Council of the Municipality of Chatham-Kent at its regular meeting held on November 8, 2021 supported the following resolution:

“WHEREAS safe and adequate housing is recognized as a fundamental human right by the Federal Government, whose effect as a major social determinant of health and wellbeing goes well beyond a basic requirement for shelter; and,

WHEREAS Kitchener’s housing situation has dramatically shifted since 2016, a Housing Needs Assessment demonstrating the average price for a house increased by 104% between 2009 to 2019, with the greatest increase since 2016, and rents increased by an average of 41%; and,

WHEREAS the City is experiencing a gap in the provision of housing, in particular the need for 450 units of supportive housing, over 5,000 units of community housing and 9,300 units of affordable rental housing to address the gaps in the existing supply; and,

WHEREAS the City of Kitchener has adopted “Housing for All – The City of Kitchener’s Housing Strategy” demonstrating a commitment to realizing the right to housing locally and addressing the housing crisis within the municipality; and,

WHEREAS landlords and investors are adding to the strain on the housing supply through the unscrupulous act of “Renovictions” by claiming they are completing major renovations and evicting and displacing existing tenants, and subsequently raising rents which affects those generally identified as lower income earners and their ability to find safe, adequate and affordable housing; and,

WHEREAS citizens and communities are hurt by these practices which can and does directly impact the housing and homelessness crisis, as well as inflict damage and trauma (both financially and mentally) particularly on our most vulnerable citizens;

THEREFORE IT BE RESOLVED that the City of Kitchener lobby the Province of Ontario to take additional and meaningful steps to address the ever-increasing problem of “Renovictions”;

THEREFORE IT FURTHER BE RESOLVED that the City of Kitchener urge all levels of government to collaborate in data sharing and collection related to renovations, specifically the impacts of renovations on tenancy;

THAT IT FINALLY BE RESOLVED that a copy of this motion be sent to the Association of Municipalities of Ontario, the Premier of Ontario, the Ministry of Municipal Affairs and housing, the Region of Waterloo and other Municipalities in Ontario for their consideration and possible endorsement.”

If you have any questions or comments, please contact Judy Smith at judys@chatham-kent.ca

**Support Resolution from the Council of Kitchener passed October 18th
re: Vaccine Passport Program**

Please be advised the Council of the Municipality of Chatham-Kent at its regular meeting held on November 8, 2021 supported the following resolution:

"WHEREAS the Covid-19 pandemic has been both a health crisis and an economic crisis; and,

WHEREAS lockdown and physical distancing measures have caused significant hardship to businesses, particularly those dependent on in-person delivery or experience (ex: retail, restaurant, hospitality, personal service, etc.); and,

WHEREAS vaccinations have proven to be an effective means of keeping Ontarians safe and can enable businesses to safely remain open without compromising the health of their customers and employees; and,

WHEREAS the Province of Ontario and the Regional Municipality of Waterloo are the primary authorities governing public health in the city of Kitchener;

WHEREAS the Economic Development Advisory Committee expressed concerns about financial supports for businesses and the City's ability to support, maintain and grow the economy;

THEREFORE BE IT RESOLVED that the City of Kitchener thank the Province of Ontario for developing the vaccine passport program, but urge the Province to provide financial supports for businesses to cover capital and human resource costs necessary to execute the program; and,

THEREFORE BE IT FINALLY RESOLVED that a copy of this resolution be forwarded to the Honourable Premier of Ontario, the Minister of Municipal Affairs and Housing, the Association of Municipalities of Ontario; and, all other Ontario municipalities.”

If you have any questions or comments, please contact Judy Smith at judys@chatham-kent.ca

Minister of Intergovernmental Affairs, Infrastructure and Communities
Ottawa, Ontario
Sent via email: infcm.infc@canada.ca

The Honourable David Piccini
Minister of the Environment, Conservation and Parks
Toronto, Ontario
Sent via email: minister.mecp@ontario.ca

Re: Resolution: 2021.09.22-CR-02, Phosphorus Recycling Facility

Dear Minister LeBlanc and Minister Piccini,

At the September 22, 2021, Town of Innisfil Council meeting, Council authorized me to write a letter outlining our support for the Holland Marsh Polder Phosphorous Recycling Facility.

The Town of Innisfil supports York Region, the Government of Canada and the Province of Ontario continuing to work collaboratively to move the Holland Marsh Polder Phosphorous Recycling Facility forward notwithstanding the "paused" status of the broader Upper York Sewage Solution. Innisfil believes the Facility will reduce phosphorous runoff into the Holland River and Lake Simcoe by up to 40% and thereby protect the Lake's watershed from algae growth, resulting in better protection for the region's aquatic habitats, increased ecosystem biodiversity and protection of drinking water sources.

Further to the above request, Innisfil Council respectfully requests the Province of Ontario support the funding of the Facility's construction.

Yours sincerely,

Lynn Dollin
Mayor

November 2021

Heritage Matters ... *more!*

Glass containers unearthed at Inge-Va during archaeological digs in 1988.

Up front | Beth Hanna, CEO of the Ontario Heritage Trust

Opening the storage vaults for you to explore

I am pleased to announce the launch of the Trust's digital collections project, providing access to our collections and another window into the sites that we protect. We are starting with collections from 18 sites from different parts of the province, carrying stories from a range of eras, communities and themes.

In recent issues of *Heritage Matters ... more!*, we've discussed ways in which we are deepening our understanding of the history of our sites. I've shared our work to expand the historical narrative, to examine the stories we tell and the sites we protect, and more specifically to identify the gaps in our work – the stories and sites that are missing. The Trust uses an integrated approach to conservation, one which examines the cultural and natural, tangible and intangible. We look in a holistic way at the interplay of architecture, archaeology, site, artifact and story. We've spoken of it as the connection of people to place and story – how that interplay has changed over time – and the resulting impact on individuals and communities.

The Trust safeguards extensive collections associated with our heritage properties and their histories. These objects connect us to the people who designed and created them and those who used them. We see in them the hands of the craftspeople who created them. They carry signs of wear from those who have used them. They reflect traditions, art forms, rituals and ceremonies, the knowledge and skills of our ancestors, ideas, scientific progress, creativity and lifestyles. Some represent aspects of our past that are not celebrated but must be remembered. All stimulate a deeper understanding of where we come from, who we are and what we value.

Portions of the cultural collections are exhibited at the sites and in the communities to which they belong, but like many institutions that hold collections, we cannot display all objects at all times.

That's why I'm so excited to open the storage vaults and invite you to explore the collection. Bring your imagination and curiosity – there is much to see!

How the Collections database works

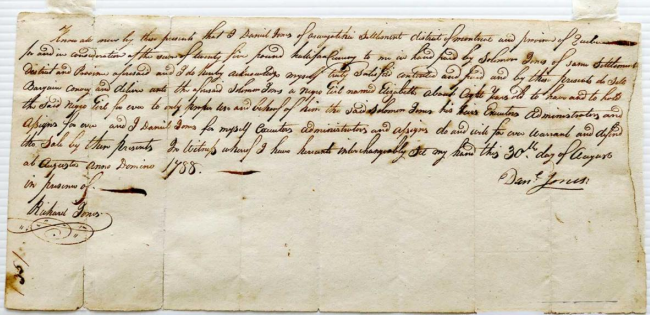

Now it's your turn! There are thousands of artifacts and collection pieces to explore. It's as easy as hitting the search button! If you're looking for something specific, there are handy tools to help you find exactly what you're looking for. You can even browse the collection by site or museum. Check out our [How to use the database](#) page for tips and tricks.

Explore the database

At a glance: Featured artifacts from the Collections database

The new Collections database contains hundreds of fascinating artifacts, both archaeological and cultural - with more being added all the time. Here are a few featured pieces and the stories they tell:

This [bill of sale](#), from the collection at Homewood Museum in Maitland, is a significant record of slavery in Ontario. It documents the enslavement of Elizabeth, a seven-year-old girl who was purchased by Dr. Solomon Jones in 1788.

Archaeologists at the Trust-owned Inge-Va property in Perth uncovered an incredibly rich array of kitchen and household ceramics and glassware that represents the 19th-century lifestyle of the Radenhurst family. This [child's mug](#) with the name of Charles belonged to Charles Radenhurst, who died of tuberculosis in 1869 at the age of 27 at the family home. His sisters Mary and Edith died of the same illness in 1873. It was common practice to bury objects that might carry the disease. We can still see the impact of disease and death within families today as we deal with the COVID-19 pandemic.

During the restoration of Toronto's Elgin and Winter Garden Theatre Centre, dozens of pieces of [hand-painted stage scenery](#) were discovered hidden in storage. These artifacts once served as the backdrops to vaudeville acts that performed at Loew's Yonge Street Theatre when it opened in 1913.

Share Heritage Matters ... *more!*
with your friends and colleagues

Your support allows the Trust to continue the important work of conserving the province's cultural and natural heritage for the people of Ontario. We invite you to join us.

Give today

The Ontario Heritage Trust envisions an Ontario where we conserve, value and share the places and landscapes, histories, traditions and stories that embody our heritage, now and for future generations.

COVID-19 update: The Trust continues to follow the latest guidelines and health and safety measures outlined by the government of Ontario and local public health units. Please check our websites and follow our Facebook, Twitter and Instagram for information and guidelines regarding visits to Trust sites. We are excited for you to explore our exhibits, stories and sites though in-person or virtual visits.

Novembre 2021

Questions de patrimoine... *toujours plus!*

Récipients de verre mis au jour à Inge-Va lors de fouilles archéologiques en 1988.

D'entrée de jeu | Beth Hanna, directrice générale de la Fiducie du patrimoine ontarien

Ouvrir les chambres fortes pour que vous puissiez les explorer

J'ai le plaisir d'annoncer le lancement du projet de collections numériques de la Fiducie, qui donne accès à nos collections et ouvre une autre fenêtre sur les sites que nous protégeons. Nous commençons par des collections provenant de dix-huit sites, situés dans différentes régions de la province, et proposant des histoires issues d'un large éventail d'époques, de communautés et de thèmes.

Dans les derniers numéros de Questions de patrimoine... *toujours plus!*, nous avons discuté de la manière dont nous approfondissons notre compréhension de l'histoire de nos sites. J'ai partagé notre travail pour élargir le récit historique, pour examiner les histoires que nous racontons et les sites que nous protégeons et, plus précisément, pour cerner les lacunes de notre travail, les histoires et les sites qui manquent. La Fiducie utilise une approche intégrée de la conservation, une approche qui examine les aspects culturels et naturels, tangibles et intangibles. Nous examinons de manière holistique l'interaction entre l'architecture, l'archéologie, le site, l'artefact et l'histoire. Nous en avons parlé comme étant le lien entre les personnes, le lieu et l'histoire – la manière dont cette interaction a changé au fil du temps – et l'impact qui en résulte sur les individus et les communautés.

La Fiducie conserve de vastes collections associées à nos propriétés patrimoniales et à leur histoire. Ces objets nous relient aux personnes qui les ont conçus et créés ainsi qu'aux gens qui les ont utilisés. Nous voyons en eux la main des artisans qui les ont créés. Ils portent les traces d'usure de ceux qui les ont utilisés. Ils reflètent les traditions, les formes d'art, les rituels et les cérémonies, les connaissances et les compétences de

nos ancêtres, les idées, les progrès scientifiques, la créativité et les modes de vie. Certains représentent des aspects de notre passé qui ne sont pas célébrés, mais dont il faut se souvenir. Tous stimulent une compréhension plus profonde d'où nous venons, de qui nous sommes et de ce à quoi nous attachons de la valeur.

Une partie des collections culturelles est exposée sur les sites et dans les communautés auxquelles les collections appartiennent, mais comme beaucoup d'établissements qui abritent des collections, nous ne pouvons pas exposer tous les objets à tout moment.

C'est pourquoi je suis si enthousiaste à l'idée d'ouvrir les chambres fortes et de vous inviter à explorer la collection. Apportez votre imagination et votre curiosité – il y a beaucoup à voir!

Comment fonctionne la base de données des collections

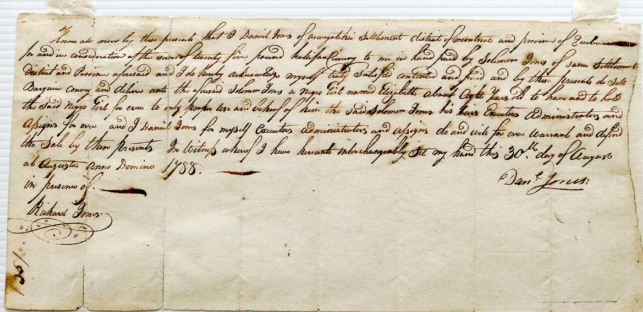

C'est maintenant à votre tour! Il existe des milliers d'artefacts et de pièces de collection à explorer. Il suffit d'appuyer sur le bouton de recherche! Si vous cherchez quelque chose de particulier, il existe des outils pratiques pour vous aider à trouver exactement ce que vous cherchez. Vous pouvez même parcourir la collection par site ou par musée. Consultez notre page [Comment utiliser la base de données](#) pour obtenir des conseils et des astuces.

[Explorer la base de données](#)

En un coup d'œil : Artefacts présentés dans la base de données des collections

La nouvelle base de données des collections contient des centaines d'artefacts fascinants, tant archéologiques que culturels – et d'autres sont ajoutés en permanence. Voici quelques-uns des objets présentés et les histoires qu'ils racontent :

Cet [acte de vente](#) (site en anglais seulement), qui fait partie de la collection du musée Homewood de Maitland, est un document important sur l'esclavage en Ontario. Il documente l'asservissement d'Elizabeth, une fillette de sept ans achetée par le D^r Solomon Jones en 1788.

Les archéologues de la propriété Inge-Va de la Fiducie, à Perth, ont découvert un ensemble incroyablement riche de céramiques et de verreries de cuisine et de ménage qui représentent le mode de vie de la famille Radenhurst au 19^e siècle. Cette [tasse d'enfant](#) (site en anglais seulement) portant le nom « Charles » appartenait à Charles Radenhurst, qui est mort de la tuberculose en 1869 à l'âge de 27 ans dans la maison familiale. Ses sœurs Mary et Edith sont mortes de la même maladie en 1873. Lors de la vente de la maison, il était courant d'enterrer les objets susceptibles d'être porteurs de la maladie. Nous pouvons encore voir l'impact de la maladie et de la mort au sein des familles aujourd'hui, alors que nous faisons face à la pandémie de COVID-19.

Lors de la restauration du Centre des salles de théâtre Elgin et Winter Garden de Toronto, des douzaines de pièces de [décor de scène peintes à la main](#) (site en anglais seulement) ont été découvertes cachées dans un entrepôt. Ces artefacts servaient autrefois de toile de fond aux numéros de vaudeville qui se produisaient au théâtre Loew de la rue Yonge lors de son ouverture en 1913.

Partagez Questions de patrimoine... toujours plus! avec vos amis et vos collègues

Votre soutien permet à la Fiducie de poursuivre son important travail de conservation du patrimoine culturel et naturel provincial pour la population de l'Ontario. Nous vous invitons à vous joindre à nous.

Faites un don aujourd'hui

La Fiducie du patrimoine ontarien envisage une province de l'Ontario où nous conservons, valorisons et partageons les lieux et les paysages, les histoires, les traditions et les récits qui incarnent notre patrimoine, maintenant et pour les générations futures.

Mise à jour au sujet de la COVID-19 : La Fiducie continue de suivre les lignes directrices et les mesures de santé et de sécurité les plus récentes décrites par le gouvernement de l'Ontario et les bureaux de santé publique locaux. Veuillez consulter nos sites Web et suivre nos pages Facebook, Twitter et Instagram pour obtenir des renseignements et des lignes directrices concernant les visites des sites de la Fiducie. Nous sommes ravis que vous puissiez explorer nos expositions, nos histoires et nos sites au moyen de visites en personne ou virtuelles.
