COVID-19 Vaccine: Janssen (Johnson & Johnson) Availability in Ontario

As part of the last mile strategy, the Health Department will be offering a limited number of Janssen (Johnson & Johnson) COVID-19 vaccine doses to individuals 18 years and older who have **not received any** COVID-19 vaccine to date. Eligible individuals might include those who are hesitant about mRNA vaccines.

Unlike the process for accessing other COVID-19 vaccines, **online booking** for Janssen is **not available**. Clients who meet eligibility need to call the Health Department's call center to book an appointment: **1-888-444-5113**. A COVax search will occur in order to confirm that clients have not received any COVID-19 vaccines to date.

Please see the Ministry of Health's [Janssen COVID-19 Vaccine Information Sheet](#) for additional information about this vaccine.
