Immunization requirements for attending Ontario schools

In accordance with the Immunization of School Pupil's Act, R.S.O. 1990; students under 18 years of age attending school in Ontario are required to provide proof of immunization against: diphtheria, tetanus, pertussis, polio, measles, mumps, rubella, meningococcal and varicella. Varicella is only required for students born in 2010 or later. Exemptions may be granted for medical reasons or philosophical reasons (i.e., conscience or religious belief). Please visit our website [Durham.ca](http://www.durham.ca) (www.durham.ca/immunize) for more information.

The Durham Region Health Department keeps immunization records of children attending school to make sure they are up to date according to age and schedule. During the school year, students who are missing required immunizations will receive a notice from Durham Region Health Department asking you to update this information.

Vaccinate...Then Update!

Visit [Durham.ca](http://www.durham.ca) (www.durham.ca/immunize) to report and view your child's immunizations online. **Be sure to attach a photo of the record.**

Every time your child receives an immunization, submit the updated immunization record to the Health Department.

Stick to the Schedule!

It's important to follow Ontario's recommended immunization schedule to keep your child protected. **Some required immunizations may not be valid when they are given too early, or too close to one another.** Ontario's immunization schedule is available at www.Ontario.ca/page/vaccines
