## COVID-19 Vaccine Allergy Clinic Referral Process

Lakeridge Health is running a **weekly** COVID-19 Vaccine Allergy Clinic where COVID-19 vaccine can be administered. The Vaccine Allergy Clinic is located at Lakeridge Health Oshawa.

Individuals with **mild to moderate** allergic reaction to the COVID vaccine or any of its components are eligible.

Patients **must be referred** to the clinic by an allergist or a specialist. A form must be completed by the allergist/specialist and faxed to the clinic. The clinic will contact the patient to schedule an appointment. Individuals must have an appointment to attend the clinic as walk-ins will not be accepted.

The form is available on:

- [www.durham.ca/hcp](http://www.durham.ca/hcp) under Forms/Referral
- <https://www.lakeridgehealth.on.ca/en/patientsandvisitors/novel-coronavirus-2019-ncov.asp>

A registered nurse or physician will administer the vaccines as recommended by the community allergist/specialist.

For additional information related to the clinic, please visit:
