

# Built For Zero Report Card

December 2021

**BUILT FOR ZERO.**  
DURHAM

Built for Zero - Canada (BFZ-C) is an ambitious national change effort through the Canadian Alliance to End Homelessness (CAEH), helping a core group of leading communities end chronic homelessness. As a participant in the BFZ-C campaign, Durham Region is committed to ending chronic homelessness by 2025.

Each month, Durham Region will share information about the number of people experiencing homelessness in our community. We hope that sharing this information will promote transparency and accountability in our homelessness response.

## By taking a close look at the data each month, it can help us:

- Focus on the facts (what we know), rather than the narrative (what we think)
- Adjust our services
- See what needs to be done to end homelessness
- Improve the lives of people experiencing homelessness

At least **209** people who are currently experiencing homelessness in Durham.

Of those, **122** people who have been experiencing homelessness for six months or longer.

## What has Changed:

### Inflow

People added to our Chronic Homelessness Number

**20** People became chronically homeless. Some have been in our system before and some we met for the first time.

**2** People got back in touch after having not been heard from in 60 days or more. Some people returned to town, or met the definition of chronically homeless again.

**0** People lost their housing. They have been in our homelessness system before, secured housing then lost that housing.

### Outflow

People removed from our Chronic Homelessness Number

**11** People moved into housing. These people moved into housing (rental units, living with family, long term care home, etc.).

**17** People lost touch. These people have not been heard from in 60 days or more, have left town, no longer meet the definition of chronic homelessness, or have died. People who no longer meet the definition of chronic homelessness are still captured in our overall number if they are still homeless.

# What the Data is Saying about Homelessness in December:

**BUILT  
FOR  
ZERO.  
DURHAM**

While we sustain strong move-in numbers month over month, the demand continues to increase and our Inflow into homelessness is consistently higher than our Outflow.

**18** Average number of monthly move-ins in 2021.

**0** Chronically homeless people lost their housing this month.

## Notes About Homelessness in 2021:

The year 2021 will continue to challenge us, with COVID-19 shelter restrictions, and a challenging housing market. We will continue to work towards our goal of ending chronic homelessness, whatever that takes.

**total  
move-ins in 2021**  
(114 of those were chronic move-ins)

## Community Progress Indicators:

Chronic Active Homelessness & Baseline Reduction. The chart begins with the baseline month (October 2020) and displays the most recent months of Quality By-Name list data.
