

Coordinated Access and Durham's By-Name List

The goal of the system is to prevent and reduce homelessness and provide streamlined access to available supports.

Coordinated Access System Steps to Finding Housing

The Components of a Coordinated Access System

- Access Points are where people make contact with the Coordinated Access System and can be added to the By-Name List
- Clients are triaged and assessed using a common intake form to gather the information needed to make appropriate referrals
- Durham Region uses the Vulnerability Index – Service Prioritization Decision Assistance Tool (VI-SPDAT)
- People on the By-Name List are prioritized based on need for housing resources
- People are matched and referred for available housing resources based on prioritization

Why is it important?

- The alternative to Coordinated Access is to provide help on a first-come, first-served basis. This means that people who can better navigate the support system get help, not people who need it most
- Coordinated Access helps people access services based on their individualized needs
- Helps track our progress in ending chronic homelessness
- Makes it easier for people to find help
- Helps us identify gaps in service
