Filming in Durham

information
This map has been produced from a variety of sources. The Region of Durham does not make any representations concerning the accuracy, likely results, or reliability of the use of the materials. The Region hereby disclaims all representations and warranties.

Data Sources: Ontario Road Network provided by Ministry of Natural Resources © Queen’s Printer for Ontario, 2008. Digital cartography and/or geographic analysis by The Regional Municipality of Durham, Planning and Economic Development Department, Data Mapping and Graphics December, 2017.
Durham Region Film Commission

The Durham Region Film Commission (Film Durham) is set up under the Planning and Economic Development Department of The Regional Municipality of Durham.

The Regional Municipality of Durham is situated at the eastern gateway of the Greater Toronto and Hamilton Area (GTHA). It is made up of eight area municipalities including the cities of Oshawa and Pickering; the towns of Ajax and Whitby; the Municipality of Clarington; and the townships of Brock, Scugog and Uxbridge. The film, television and digital media industry in Durham has created a destination for production; and a co-ordinated approach between the Region and its eight area municipalities makes for a seamless experience.

Durham Region is a member of the Association of Film Commissioners International (AFCI), as well as a formally defined jurisdiction for the purpose of encouraging film and media activity to create jobs, business opportunities and educational opportunities.
Film Durham acts as a one-stop-shop for the industry. As the main point of contact, Film Durham focuses on the following film-related activities:

- To create and maintain an environment conducive to the long-term and healthy development of the film industry.
- Marketing of locations, local crew, equipment and expertise.
- Maintaining a resource centre and a dedicated website, with information about local rules and regulations related to location shooting and reference material on film production services.
- Location scouting support.
- Assisting/troubleshooting inbound productions.
- Organizing film-related events for promotion of the Durham Region film industry locally and abroad.
- Facilitating a film-ready workforce and community.

The Durham Region Film, Television and Digital Media Advisory Committee is composed of key representatives and sector champions from educational institutions, government, location assets, industry and labour. This group offers strategic advice on growing the film sector in Durham.

The region’s film industry is supported by the Ontario Media Development Corporation (www.omdc.on.ca). This group is the focal point for Ontario’s creative media industries, offering resources, an online digital location library, funding information and relevant services.

**Film industry overview**

Ontario, and more specifically the Greater Toronto and Hamilton Area (GTHA), continues to be a centre of Canadian film, television and digital media production. Though primarily composed of small-to-medium-sized businesses, the film, television and digital media sector in the GTHA has become a multi-billion dollar industry.
Durham Region plays an important role in all aspects of Ontario’s film, television and digital media industry (production, creators, music videos, festivals, commercials, etc.). Many of the production companies that come to Durham Region have established headquarters in Toronto, the second largest screen-based production centre in North America. In 2016, Toronto had its sixth consecutive year of total production spending; exceeding $1 billion, jumping to a record $2 billion for the year.

From 2012 to 2016, the film production activity in Durham Region increased by 66 per cent. During this period it was estimated that Durham saw approximately $103 million in production activity, generated from 297 projects.

Durham’s natural, cultural and heritage assets offer a wide range of location choice for film production. These include picturesque bridges, urban streetscapes, and quaint downtowns; to quarries, museums, rural settings, abandoned factories and rustic train stations.

A robust pool of skilled technicians and trades is available, supported by strong post-secondary institutions that are producing creative and talented graduates. There are also approximately 600 professional services companies in Durham Region that are required by the film industry.

With the decreasing availability of film locations in Toronto, Durham Region, with its unique assets, provides for a great location choice. The close proximity to Toronto’s film industry also offers the potential to significantly expand film production in Durham. Having appeared in many popular films and television series, Durham Region is the perfect place for film or any production.

Visit durham.ca/FilmLocations for the Film Durham—Digital Locations Portal. This online locations tour features films and television series previously filmed in Durham Region and unique locations that are available in the region.
Planning and guidelines

Film permits

A film permit is required for any locations that need road occupancy on Regional roads.

To download the online film permit application, visit durham.ca/permits.

Proper prior notification

When filming in a neighbourhood or business district within Durham Region, notification letters must be distributed to each merchant, resident or occupant in the filming area—a minimum of 48 hours before production arrives. This notification also pertains to the film crew’s use of parking and/or base camp areas that may affect or inconvenience particular merchants, residents or occupants.

The notice must include:

- The name of the production company and title of the production.
- The production type (feature film, mini-series, television series, etc.).
- The type, duration and description of the filming activity:
  - Dates, times and number of days involved.
  - How the activity may affect or disrupt the merchant or resident (e.g. road closures, loud noises, flashing lights, etc.).
- A company contact, including the location manager and location assistant.

Production vehicle restrictions

- If the filming location is located in or near a residential area, production vehicles must arrive no earlier than the time shown on the film permit.
- Vehicles must park, one by one, turning off their engines as soon as possible.
· Cast and crew vehicles are not covered by the location filming permit. They need to park in designated parking areas, as noted by location managers.

· Filming in residential areas can only take place between 7 a.m. and 11 p.m. If this time needs to be changed, residents must approve it. Permits for authorized filming in residential areas between 11 p.m. and 7 a.m. will not be approved unless all residents have been notified in advance.

· Any non-production vehicles parked in the residential area cannot be moved or towed.

· Production vehicles are not to block or park in driveways, unless given prior permission by the driveway owner.

Eating, drinking and smoking on location

· No alcoholic beverages are allowed on a film set or location.

· Cast and crew must eat their meals in a designated area, as per the location agreement or permit.

· Trash must be disposed of within the proper receptacles.

· Cast and crew must observe the designated smoking areas.

· Cigarettes must be extinguished in the appropriate receptacles.

Trees and street signs

· Crew cannot remove, trim and/or cut any vegetation or trees unless approved in advance by the municipal authority or the property owner.

· Film crews are not to move or remove city street signs.

Noise

· Members of the cast and crew are to keep noise levels as low as possible.

· Cast and crew will not use rude or improper language.

· Production companies must comply with legislation governing noise.

· As set out above in “Proper prior notification,” all affected residents and merchants must be advised, in advance, of
expected noise(s) associated with filming.

**Lighting**

- Lighting for filming should be oriented away from the neighbouring residences, unless the residents do not object.
- Lighting should not interfere with the safe movement of traffic.
- Night filming, with intensive lighting between 11 p.m. and 7 a.m., requires written approval by a majority of affected residents.

**Etiquette**

- Film company employees are to wear appropriate clothing while on location.
- Displaying offensive slogans and logos is not acceptable.
- Members of the crew must wear a production pass or badge while on location.
- Cast and crew cannot bring guests or pets to the location unless given prior permission by the production company.

**Film permit application timelines**

- The minimum turnaround time for the issuance of a film permit is 10 full business days from the date of application, although subject to change.
- Permits will be issued before the filming date and/or coning date (when cones are placed across a road to prevent traffic from going on the road).
- Changes to permits require 48 hours written notice to residents, businesses, Durham Region Works Department (Traffic Division) and the Film Office.
- Changes include adding streets, filming dates, wrap out dates and parking, special effects, changing blocks, extending filming/parking times, or any other significant filming component.
- In case of rain, rain dates should be added to the application.
- The Region reserves the right to refuse to issue a permit to a production company or individual with a known history of a failure to follow these guidelines.
Residents, occupants and businesses

- Production companies are required to keep their disruption of residents, occupants, businesses and government employees to a minimum.
- This responsibility includes not interfering with access to the offices, residences, or business premises; and ensuring that pedestrian and vehicular access to these properties is unimpeded.
