Median After-Tax Household Income (2011)

Table 3: Median after-tax household income by Durham Region Municipality

Municipality	Median after-tax household income	Compared to Durham Region (Higher is Better)
Pickering	\$77,000	similar
Ajax	\$75,700	similar
Whitby	\$80,000	similar
Oshawa	\$56,000	LOWER
Clarington	\$71,500	similar
Scugog	\$74,800	similar
Uxbridge	\$77,500	similar
Brock	\$60,600	similar
Durham Region	\$70,100	Similar to Ontario
Ontario	\$58,700	

What You Need to Know

- A higher income is generally better for health.
- The median household income ranges by Health Neighbourhood from \$32,500 to \$98,800.
- Lower income is generally associated with poorer health outcomes. Median income is higher in Pickering, Ajax, Whitby, Uxbridge, Scugog and parts of Clarington. The downtown areas of the urban municipalities and Neighbourhoods in south central Oshawa tend to have lower income.

Indicator Notes

- The after-tax household income is the total income from all sources minus federal, provincial and territorial income taxes paid for 2010. The median household income for an area is the value that divides the households into two equal halves, with one half of the households with income below the median and the other half with income above the median.
- Source: National Household Survey (NHS) 2011, Statistics Canada.
- The NHS replaced the long-form Census in 2011. As a voluntary survey, the NHS has more non-response bias than a census so there is a risk that the results are not representative of the actual population, especially in smaller areas or population groups.
- Statistics Canada uses the global non-response rate (GNR) to assess the quality of the NHS estimates for various geographies. NHS estimates for any area with a GNR greater than or equal to 50% have a high level of error and should not be released.
- The GNR ranges by Health Neighbourhood from 19.3% to 46.9%. In general, rural areas tend to have a higher GNR.
- Neighbourhoods were sorted into five groupings (quintiles) based on the median income. Approximately 10 Neighbourhoods are in each quintile.
- Lower refers to at least 20% lower than Durham Region. Higher refers to at least 20% higher.
- For more information on this indicator see, [National Household Survey Dictionary, 2011](#).

Release Date: January 2015.
