

As the demand for food donations increases, the Durham Region Health Department wants to make sure residents are donating acceptable food items. All food products must come from an inspected facility/source and meet the following requirements:

Acceptable food items:

**Non-perishable,
shelf-stable food**

**Pre-packaged perishable
foods that can maintain
appropriate temperatures**

Prepared pre-packaged meals

Perishable food items for donation must be transported and stored cold, below 4°C, or hot, above 60°C. For more information, contact your public health inspector.
