Date board of health became aware of potential IPAC lapse: 2020-08-31

Date of initial report posting: 2020-09-28

How the potential IPAC lapse was identified: Complaint

Summary description of the IPAC lapse by complainant:

Concerned with improper cleaning and disinfection of re-useable implements. Infection suspected after service.

IPAC Lapse Investigation

Did the IPAC lapse involve a member of a regulatory college? No

Were any corrective measures recommended and/or implemented? Yes

Please provide further details/steps:

- Operator to clean reusable implements by using a clean, dedicated brush with detergent and water and friction to remove debris prior to disinfection.
- Operator to maintain disinfectant at appropriate strength.
- Operator to ensure aftercare instructions are provided to all clients and include cleaning hands before and after touching the serviced area; and a recommendation to consult with a physician within 24 hours if any signs of infection develop following the procedures.
- Operator to ensure equipment cleaning sink is not located in a washroom.
- Operator to apply disinfectants for the proper contact time.
- Operator to maintain records for all items purchased as pre-packaged and sterile.

Date any order(s) or directive(s) were issued to the owner/operator:

2020-09-15, 2020-09-17, 2020-10-06, 2020-10-07, 2020-10-23

Final Report

Date of final report posting: 2020-10-30

Date all corrective measures were confirmed: 2020-10-26

Brief description of corrective measures taken: A re-inspection was completed on 2020-09-17 and 2020-10-23. All items were in compliance as per the corrective measures indicated above. The extent of the above corrective measures was considered minimal.
