

School-Based Vaccine Batch Order Form

Men-C-ACYW-135, Hepatitis B and Human Papillomavirus 9 vaccines

As Durham Region Health Department (DRHD) immunization community clinics remain on hold in the spring, **eligible** students can continue to receive school-based immunizations through their healthcare providers (HCP). HCPs who have noted an increase in requests can now **temporarily** batch order **Men-C-ACYW-135, Hepatitis B (HB) and/or the Human Papillomavirus 9 (HPV9)** to meet demand. Providers who do not routinely see students between grade 7-12 are recommended to continue ordering school-based immunizations on an individual basis.

Requirements for Order to be Processed:

- Only use batch supply for grade 7-12 student that meets the routine publicly funded criteria:
 - HPV9: 2 doses given 6 months apart
 - HB: 2 doses given 6 months apart
 - Men-C-ACYW-135: one dose only
- Complete all sections below and fax the order form with temperature logs to the site where you pick up your vaccine (locations below). Orders can take up to 10 business days to process.
- Ensure DRHD receives vaccine updates by:
 - Faxing the immunization update to DRHD to 905-666-6216
 - Fill out and provide your client a **“Vaccinate then Update Tear-off”** (pad to be provided with first batch order and requested as needed for subsequent orders).
