

Daily Screening Protocol

All children, staff, and essential visitors
must complete a self-screen prior to entry into the child care centre.

- Has a doctor, health care provider, or public health unit told you that you should currently be isolating (staying at home)?
- Is anyone you live with currently experiencing any new COVID-19 symptoms (unrelated to COVID-19 vaccination with the past 48 hours) and/or waiting for test results after experiencing symptoms?

Do you or your child have any of the following symptoms?

Not related to chronic or other known causes or conditions. If you received a COVID-19 vaccination in the last 48 hours and are experiencing a mild headache, muscle aches, fatigue, and/or joint pain that only began after vaccination, answer "No" under the related symptom.

- Fever and/or chills
- Cough
- Shortness of breath
- Decrease or loss of smell or taste
- Sore throat or difficulty swallowing
- Runny or stuffy/congested nose
- Headache
- Nausea, vomiting and/or diarrhea
- Extreme tiredness or muscle aches
- Pink eye
- Stomach pain/ache

In the past 14 days:

- Have you received a COVID Alert exposure notification on your cell phone?
- Have you or anyone you live with travelled outside of Canada?
- Has your child, or you as a staff/visitor, been identified as a "close contact" of someone who currently has COVID-19?

**If you have answered YES to any of the above
DO NOT ENTER**

the child care centre.

Please contact your centre supervisor for further direction.
