

Daily Screening Protocol

**All children, staff, and visitors
must complete a self-screen prior to entry into the child
care centre.**

- Has a doctor, health care provider, or public health unit told you that you should currently be isolating (staying at home)?
- Do you live with someone who is currently isolating because of a positive COVID-19 test or live with someone who is currently isolating because of COVID-19 symptoms or who is waiting for COVID-19 test results?
- Have you been identified as a "close contact" of someone outside of the household who currently has COVID-19 and been advised to self-isolate?
In the past 5-10 days, have you tested positive for COVID-19?

Do you or your child have any of the following symptoms?

If you received a COVID-19 vaccination or flu shot in the last 48 hours and are experiencing a mild headache, muscle aches or joint pain fatigue, or extreme tiredness that only began after vaccination, answer "No" under the related symptom.

- | | |
|---------------------------------|-------------------------------------|
| *Fever and/or chills | *Decrease or loss of smell or taste |
| *Cough | *Nausea, vomiting and/or diarrhea |
| *Shortness of breath | *Extreme tiredness |
| *Sore throat | *Muscle aches or joint pain |
| *Runny or stuffy/congested nose | *Headache |

In the past 14 days:

- In the last 14 days, have you or your child travelled outside of Canada and been advised to quarantine as per the federal quarantine requirements?
- Have you travelled outside of Canada and told not to attend school/child care?
- Has someone you live with returned from travelling outside of Canada and is isolating while awaiting results of a COVID-19 test?

If you have answered **YES to any of
the above **DO NOT ENTER** the child
care centre.**

**Please contact your centre supervisor for further
direction.**
