## Roads and Transportation

---

The Region designs, builds, and maintains the Regional Road Network. This includes bridges, storm sewers, traffic signals, signs, pavements marking and guiderails on Regional roads. Transportation services include the planning, design, survey, construction management and maintenance of all Regional roads, bridges, traffic signals, and other road infrastructure. The department also contributes to the development and implementation of a Region-wide long-term Transportation Master Plan. Durham Region Transit operates a scheduled bus service, On-Demand transit, and specialized transportation.
